make reasonable attempts not to damage the Installation(s); however, should damage occur, the Board will not be responsible for any such damage.

In the event the Installation(s) interferes with the Board's use, maintenance, or operation of its Facilities, the Board in its sole discretion may require the Licensee to relocate, rearrange, modify, or remove the Installation(s) at Licensee's sole expense. Licensee shall relocate, rearrange, or modify the Installation(s) within a timeframe and in compliance with the requirements that the Board designates, or Licensee may terminate this Agreement.

Nothing in this Agreement shall imply that any ownership interest of the Licensed Area is being conveyed to the Licensee.

8. PROOF OF LOCATES: Licensee shall obtain, or require its contractors and any subcontractors to obtain, proof of clear locates for all work in connection with this Agreement in compliance with applicable law.

9. WORK PLANS AND SPECIFICATIONS: Any Work initiated under this Agreement shall be performed and completed at no expense to the Board according to the plans and specifications approved by the Board in writing and in compliance with all applicable Board standards. The Licensee represents and warrants that initial Installation(s) authorized by this Agreement shall be constructed within the limits of construction shown on **Exhibit B**.

9.1. Different Location. If any Installation(s) location is reasonably determined by the Board to be materially different from the approximated location shown on any plans and specifications approved by the Board, the Board may require Licensee to undertake corrective work at Licensee's sole expense. If the Board does not require corrective work, the Board may notify the Licensee of such determination, and this Agreement shall be deemed amended, effective as of the date of the Board's notice and without further action by the Parties.

9.2. Right to Inspect. The Licensee shall notify the Board upon completion of any construction work; upon receipt of such notice, the Board may elect to inspect such work and require Licensee to undertake corrective work at Licensee's sole expense if the work fails to conform to the approved plans and specifications, Board's applicable standards, federal, state or local laws, or any applicable industry standards.

10. RIGHT TO SUSPEND WORK: Notwithstanding any other provision in this Agreement, the Board has the right to suspend the performance of any Work under this Agreement without any liability if the Board, in its sole discretion, determines that the Licensee or any of its contractors or any subcontractors

failed to comply with the terms of this Agreement. The Board shall not be liable for any delays in the completion of the work that result from the suspension under this paragraph.

11. OWNERSHIP; OPERATION & MAINTENANCE OF INSTALLATION: Licensee shall own the Installation(s) and shall ensure that the same is operated and maintained, at no expense to the Board, in good repair and in full compliance with all federal, state, and local laws, permitting requirements, and applicable industry and Board standards until this Agreement is terminated.

12. BOARD'S ACCESS: The Licensee shall conduct all Work in such a manner that the Board shall have full and complete access to the Licensed Area at all times. The Licensee shall not obstruct any access roadways or ingress to or egress from such roadways.

~~13. CURB CUT AND TRANSITION DETAIL: Licensee shall construct and maintain all necessary, in the opinion of the Board, curb cuts from the Installation(s) to any roadways and any access roads at no expense to the Board. All such access roads and curb cuts shall be depicted on the plans and specifications provided to the Board, shall be at locations approved in writing by the Board, and shall comply with the Board's curb cut detail, a copy of which is attached as Exhibit B. The Licensee shall not obstruct Board roadways or ingress to or egress from such roadways.~~

~~16. UNDERGROUND LINES: Underground electric power line installations shall be encased in rigid steel conduit and/or concrete within the Licensed Area. The Facilities must not be included in any concrete encasement.~~

~~17. MARKER POSTS: The Licensee shall place two permanent marker posts, one at each end of the Installation(s) and on its centerline, to the satisfaction of the Board's representative. Each permanent marker post shall be filled with concrete and installed to allow a three foot extension above the surface of the ground. The marker posts shall extend a minimum of two feet below the surface of the ground and be encased in concrete. ~~19. OVERHEAD CLEARANCE: Licensee shall maintain a minimum overhead clearance of 25 feet over the Board's HIGH LINE CANAL. No portion of the Installation(s) shall extend below the stringers of any bridge to which it is attached.~~

20. ENVIRONMENTAL: Licensee shall comply with all applicable laws and ordinances and all rules, regulations, and requirements of any governmental authority controlling environmental standards and conditions of the Licensed Area. If, as a result of Licensee's occupancy of the Licensed Area, any such law,

ordinance, rule or regulation is violated, the Licensee shall, if and to the extent permitted by law, protect, save harmless, defend, and indemnify the Board from and against any penalties, fines, costs and expenses including legal fees and court costs incurred by the Board, caused by, resulting from or connected with such violation or violations. This indemnification of the Board by the Licensee, if and to the extent permitted by law, includes, without limitation, costs incurred in connection with any investigation of site conditions or any cleanup, remedial, removal, or restoration work required by any federal, state or local governmental agency or political subdivision because the Hazardous Material is present in the soil or ground water on or under the Licensed Area.

20.3. Cleanup. If the presence of any Hazardous Material on the Licensed Area caused or permitted by the Licensee results in any contamination of the Licensed Area, the Licensee shall, at its sole expense and after obtaining the Board's written approval, promptly take all actions that are necessary to clean the contamination and return the Licensed Area to the condition existing prior to the introduction of any such Hazardous Material to the Licensed Area. The clean-up of the contamination shall be in compliance with all applicable state and federal standards.
