Ridge Road / South Broadway	-----	Create	Medium

Attachment A provides a list of all existing and proposed neighborhood, corridor, and activity area plans along with the status and a recommended program of action for each. It identifies three categories of recommended actions: 1) dashes for plans that are considered current and need no major attention, 2) "Update" for plans that are out of date and should be revised, and 3) "Create" for areas for which a plan is recommended, but not yet been developed.
