Re: Proposed Amendments to Littleton Cannabis Code

Dear Ms. Perry and Mr. Betzing,

I write on behalf of local licensee I&S LLC d/b/a Silver Stem Fine Cannabis to respectfully propose three amendments to the Littleton Cannabis Code.

Specifically, the proposed amendments would bring the local Code into alignment with state law and neighboring jurisdictions by:

1. Extending permitted cannabis store operating hours;
2. Removing the current 2,000 sq ft per license cap on permitted cannabis store floor space; and
3. Aligning sales limits for medical marijuana patients with state law.

The attached .pdf outlines the proposed amendments in greater detail.

We believe that these proposals will increase revenue, help Littleton to compete with nearby jurisdictions, improve traffic flow and parking and make life easier for medical marijuana patients with disabilities or transport challenges. We would welcome the opportunity to present these proposals to Council.

Sincerely,

/s/ Adam Foster

Adam Foster
