OVERVIEW

- Survey Plan
- Expected Outcomes
- Updates

Survey Plan

A survey plan is a process through which a community or resource owner comes to understand the character and utility of past surveys that have been completed and plan for and prioritize future survey work that needs to be done.

Expected Outcomes

- Process Overview
 - 12 month timeline
 - Review of existing records and surveys
 - Reconnaissance survey of properties
 - Research and document historic contexts
- Final Survey Plan
 - Prioritized recommendations for future survey
 - Does not include full surveys of properties
 - Inform future preservation plan

Updates

- Amended scope to allow for more surveys and expanded annotated bibliography
- Reconnaissance surveys conducted on primarily mid-century modern multi-family properties
 - HPC member recommendations included
- Final drafting stage
