Mary Danser
City of Littleton
2255 W. Berry Avenue
Littleton, CO 80120

Dear Mary,

Arapahoe County Open Spaces is pleased to inform you that your recent High Line Canal Stewardship Grant application for High Line Canal Irrigated Tree Planting Pilot has been approved for funding in the amount of \$233,000.

All grant awards are subject to the execution of an Intergovernmental Agreement (IGA) between the County and grantee. Please return the signed IGA (**grantee signatures only**) via email to sbottoms@arapahoegov.com. I will obtain County signatures and return a digital copy of the fully executed IGA to you for your records.

Please note that the County, as owner of the subject property, has not yet approved construction or implementation of the grant project. Funding awards are contingent upon such approval. Following final approval of the project plans, the City will be required to sign a license agreement permitting it to complete the grant project on County property.

To initiate the review and approval process, the City should apply to Denver Water for a license agreement, as Denver Water is currently assisting the County with processing these requests. Please see the attached submittal requirements and reach out to Gina Begly (Gina.Begly@denverwater.org) if you have questions about this process. Additionally, please submit a Certificate of Insurance to Greg Howe (GHowe@arapahoegov.com). See attached insurance requirements.

Congratulations on your grant award! Please don't hesitate to reach out if you have questions.

Sincerely,

Sandy Bottoms
Grants Program Administrator
