DATE: April 9, 2020

SUBJECT: Phase I Downtown Littleton Design Standards survey

Background

The city was tasked with developing a survey to better engage the community and elicit feedback on proposed code amendments. The following is a summary of results for survey responses and emails received by 12:00 p.m. on April 8, 2020.

Summary of Results (3/17)

The city has received 11 survey responses through the linked survey on LittletonPlans.org. The individual survey responses are attached. The majority of respondents from the survey are residents of Littleton, three were business owner/employees. No developer responses were received.

1. Are you a (check all that apply)

Responses

3.91

Average Number

Survey responses indicate positive responses to banning slot homes as a building type. There seemed to be some concern regarding living landscaping percentages. All survey responses are attached.
