Poll: Downtown Littleton Smoking Restrictions

Should the City of Littleton implement restrictions on smoking in a defined area of Downtown?

Name not shown inside 1 (on forum)

October 18, 2015, 12:11 PM

I say Yes

As an ex smoker, I realize it's difficult to be told "No Smoking". However, people no longer smoke on aircraft, in most air terminals, most restaurants, etc. It should be matter of fact that smoking in public right of ways should be regulated and in most instances curtailed totally. As a District One resident and homeowner(14 years) I resent having to negotiate tobacco smoke whenever I go to a downtown eatery or pub. The restriction on keeping smoke away from entrances is a joke and the vast majority of smokers completely ignore the setback requirements . The time has come for the council members to do what the Surgeon General did decades ago. Vote yes on keeping tobacco smoke away from the general public.

Norris Davis inside 1 (on forum)

October 13, 2015, 7:41 PM

I say No

I spend a lot of time on the sidewalks of downtown Littleton and I don't see a problem with having to walk around someone who is smoking. I could see the need for such a law if you had hundreds of people out on the walks smoking, but I just don't see that in this case. Let's spend our resources on more important issues please.

Norris Davis

Should the City of Littleton implement restrictions on smoking in a defined area of Downtown?

I say No

Bryon Schelk outside Littleton Council Districts (on forum)

October 3, 2015, 2:18 PM

I say No

My decision is difficult, I'm an ex smoker that chose to better my life and quit smoking and start using an alternative, this being said I do not enjoy the smell of smoke however if they are used in proper areas I can easily avoid this situation. Also if this ban was put into place would hurt my ability to use my electronic cigarette device when I would like too and would hinder my decision to visit the town and or business located in the city as well.

I say Yes

Name not shown inside 1 (on forum)

October 3, 2015, 10:59 AM

I say Yes

My position is straightforward-experts agree second hand smoke from cigarettes and cigars have health implications and therefore I strongly support smoking restrictions/ban. Those who smoke in public are inconsiderate of their surroundings, especially kids and those with health issues. Restaurants especially more than bars should have complete smoking bans. Any plum of smoke emanating from whatever device (cigarette, cigar, e-cig, pipe, joint etc) should be banned in all restaurants. Use the Tavern rooftop for example-why is it fair to subject someone, especially kids, to second hand smoke while they are enjoying their meal outside? In the case of bars I think it would be fair to have designated areas both inside and outside. Public places such as parks, sidewalks, etc.... I would also support smoking restrictions. Overall, whose going to enforce smoking restrictions? Is the Littleton Police going to implement a special division to monitor public smoking in designated vs non-designated areas? At the end of the day it just boils down to narrow self-centered focus of many people and their consideration for others. Because of their lack of consideration smoking restrictions/bans should be implemented.

Name not shown inside 1 (on forum)

October 2, 2015, 2:23 PM

I say No

It is an outdoor area, a restriction would be difficult to enforce and as a smoker, I tend to avoid cities that have banned smoking. I would hate that to happen with downtown Littleton as I live in the area & frequently shop/dine there. I am also a conscientious smoker and don't smoke in front of open doorways, etc. The shop

Poll: Downtown Littleton Smoking Restrictions

owner that complained should welcome any potential customers regardless of whether they smoke or not - she's in the retail business for goodness sake. People have become way to sensitive.

Name not available (unclaimed)

October 2, 2015, 11:50 AM

I say No

Don't let Littleton become another Nanny State. If you want to restrict real harmful air quality then I would suggest banning cars, trucks, and buses from down town Littleton. The toxic emissions from these sources far out weigh out door second hand tobacco smoke.

September 29, 2015, 1:09 PM

I say Yes

From the earliest arguments against smoking bans there have been doomsday arguments that banning smoking will hurt businesses by driving smokers elsewhere. The truth is that more customers who do not want to suffer through second hand smoke have more than filled the void left by smokers. With all we now know about the horrible effects of second hand smoke I don't see how this ordinance could be considered controversial. I am all for allowing people to do what they want as long as it doesn't impact me. If someone wants to enjoy their smoke then close themselves in their car or residence so they can enjoy all the smoky good carcinogens all to themselves.

If anything the inclusion of a ban on rooftop and back patios should be included. Anyone with children would not want to sit next to someone smoking even in an open air environment.

Name not shown inside 1 (on forum)

September 27, 2015, 8:11 AM

I say Yes

I am definitely in favor of a full ban as well. I, too, enjoy eating out on the rooftop decks, but due to second hand smoke blowing my way, it is something I have to give up and always stay inside. The last time I visited the back deck of the Platte River Grill I may as well have been in an enclosed bar where everyone was smoking; I will never return. Smokers should enjoy their vice in private without hurting the public.

Poll: Downtown Littleton Smoking Restrictions

Should the City of Littleton implement restrictions on smoking in a defined area of Downtown?

Regarding the revised ban on smoking: it is preferable to ban smoking on rooftop patios and decks within the downtown area. People who want to smoke can still do so in the designated lots and alleys away from other nonsmoking downtown patrons.

Name not shown inside 4 (on forum)

September 10, 2015, 7:17 PM

I say Yes

I don't want to step in spit or dog poo.

I don't want to see garbage in the street.

I don't want to hear the defining sound vehicles with no mufflers.

And I don't want to breath in smoke.

All of the above have restrictions that make Littleton a desirable place to live and visit with the exception of smoking!

These are all related to pollution and public health issues that need restrictions.

Name not available (unclaimed)

Please don't turn Littleton into a mini Boulder. Apparently most people are unaware of the drastic loss of business (and therefore revenue) Boulder has suffered due to its draconian use of law to punish those who don't behave the way Boulder wants them to.

There is no utopia. All of us must learn to recognize that living together in harmony means that we must accept each other as we are, warts and all. Draconian rules, however minor, will never build a community, they will only divide us. Respect and consideration from both sides is the only way any community can live together, and rules like this are the harbingers of a sinking community.

Poll: Downtown Littleton Smoking Restrictions

Should the City of Littleton implement restrictions on smoking in a defined area of Downtown?

I say No

This restriction stigmatizes smokers and treats them as lower-class citizens. Incidental cigarette smoke on public sidewalks is not a public hazard. I'm allergic to perfumes, which can cause breathing problems, yet there is no restriction on perfume use in downtown Littleton. To me, cigarette smoke and heavy perfume are in the same category. We don't need more regulation. People need to show tolerance for the habits of others.

I am not a smoker, so that does not influence my opinion.

I say No

I have not experienced any problems with smokers and think what is already in place works.

Poll: Downtown Littleton Smoking Restrictions

Should the City of Littleton implement restrictions on smoking in a defined area of Downtown?

I say No

there have been smoking restrictions in place in littleton since 2006. The proposed ordinance does nothing to improve upon the current ordinance except to further ostracize and humiliate citizens who smoke. The proposed legislation relegates smokers to places such as private parking lots. I suspect, if passed, the ownership of those private lots would not allow smoking on their properties, further reducing the allowable areas for law abiding citizens to smoke. Back alley restrictions would cause hardship on downtown merchants to offer safe and legal access for smokers to use their back exits. For instance, would these back exits now be subject to the American with Disabilities Act to provide handicap access to such areas? This ordinance has far reaching consequence to both the public and merchants of downtown Littleton. This ordinance should be tabled permanently. Thank you. A non-smoker
