Executive Summary

Survey Background and Methods

The Littleton Resident Survey is an important source of context for decision making by the city. It brings the voice of people from across the community to city staff and officials. The baseline survey was conducted in 2012. The 2018 survey is the fourth iteration, which provides valuable data on how the perception of the quality of city services and how residents view their community in general has changed over time. It also provides a way to assess the community's level of support for, or the importance of, potential changes in programs or policies.

The mail survey was administered using scientifically sound, rigorous methods to ensure unbiased, statistically valid, representative results for the City of Littleton. The best survey research practices were used for the resources spent to reduce possible sources of error (e.g., sampling error and non-response error). These practices included selecting households at random to participate, using an unbiased procedure to select a respondent within the household, contacting potential respondents multiple times and weighting the data to reflect the demographic profile of adults in Littleton.

A representative selection of 3,000 residential addresses within the city boundaries was mailed the survey in February of 2018. Of the 3,000 surveys mailed, 4% were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. Of the 2,887 households that received a survey, 721 completed the survey providing an overall response rate of 25%.

It is customary to describe the precision of estimates made from surveys by a level of confidence and accompanying confidence interval (or margin of error). A traditional level of confidence, and the one used here, is 95%. The 95% confidence interval quantifies the sampling error or imprecision of the survey results because some residents' opinions are relied on to estimate all residents' opinions. The margin of error is no greater than plus or minus four percentage points around any given percent for all survey respondents (721 surveys).

Survey Highlights

Residents valued Littleton as a place to live and safety in the community.

- Almost all residents (96%) felt that Littleton was an excellent or good place to live. A similar proportion (92%) gave favorable marks to the city as a place to raise children. Both these ratings have remained stable over time and were higher than evaluations given in other communities across the country and in Colorado's Front Range.
- However, fewer residents in 2018 than in 2016 gave positive reviews to the city as a place to retire, although this rating was still much higher than ratings in peer communities.
- Nine in 10 residents gave excellent or good ratings to their overall quality of life in Littleton, a rating that was similar to past survey years and continues to be much higher than the benchmarks.
- In 2018, the location, feelings of safety and liking their neighborhoods were the most commonly mentioned reasons for living in Littleton. These reasons also topped the list in prior survey years.

- Littleton residents continued to feel safe in and around Littleton, with nearly all indicating they felt very or somewhat safe Downtown, in Littleton overall and in their neighborhood during the day. Perceptions of safety in Littleton were similar to, or better than, the ratings from other communities.
- Respondents were asked to indicate their level of agreement with several statements that could describe the City of Littleton. Almost all (96%) agreed that the city was a safe community and the city had a low crime rate (91%). This high level of agreement has continued since the base line survey in 2012.

Residents voiced concerns about growth in Littleton and its impact on mobility in the community.

- When asked to indicate the three most pressing issues facing the community in the next two years, the most frequently selected concern was traffic in general (60% of respondents). The proportion of respondents selecting this as an issue increased dramatically from 2016 to 2018 and has been growing concern since 2012.
- Of seven statements about Littleton, the least often agreed with was “traffic flows well on city streets.” This has been the least agreed with statement (out of seven) since 2012 and fewer residents in 2018 than in 2016 strongly or somewhat agreed that this statement described Littleton.
- Evaluating traffic flow in Littleton, only 41% said it was excellent or good; a decrease from 59% in 2012.
- Evaluating specific aspects of transportation, ease of travel in Littleton received mostly positive reviews from residents. The Downtown Littleton light rail station, the Mineral Avenue light rail station, ease of traveling by light rail and the Omnibus/Shopping Cart van service received excellent or good ratings from at least 8 in 10 respondents. Where comparisons were available, ratings for the most aspects of travel tended to be higher than the national and Front Range benchmarks.
- However, traffic congestion had a drop in ratings from 2016 to 2018, though ease of driving and street maintenance have been declining since 2012.
- Additionally, while evaluations of traffic flow in Littleton remained stable from 2016 to 2018, they have been trending down since 2012 and ratings were lower than the national average and similar to Front Range.
- Respondents evaluated the importance of potential projects in Littleton over the next five to eight years. Reducing traffic congestion on city streets and was deemed the most important future project by about one-third of respondents (a 14% increase from 2016) and 75% felt it was an essential or very important potential project for the city (a 12% increase from 2016).
- Relatedly, parking downtown was a concern for many residents. Downtown parking was the lowest rated city services out of 30 and has steadily been trending down since 2012. This rating also was much lower than the national benchmark comparison.

Survey respondents gave high marks to City services, especially those related to cultural and outdoor facilities and programs.

- About 8 in 10 respondents gave positive assessments to the overall quality of city services, ratings that were higher than the national and Front Range benchmarks. Although this rating was similar to 2016, it declined from 2014 to 2016.

- Overall, at least 6 in 10 respondents gave excellent or good ratings to most of the individual city services. Services viewed most favorably were Littleton Fire Rescue, Carson Nature Center, South Platte Park, the Littleton Museum, parks and trails, Hudson Gardens and Bemis Library. Most of these ratings were stable over time and higher than the benchmarks, when a comparison was available. However, the Carson Nature Center saw an uptick in positive ratings from 2016 to 2018.
- After a dip in ratings from 2014 to 2016, evaluations for snow plowing increased in 2018 to their highest levels yet. However, when compared to the benchmarks, these ratings were lower than the national average and similar to the Front Range. Decreases in quality ratings were seen for the Municipal Court, traffic enforcement, City management and downtown parking and these ratings tended to be similar to or lower than comparison communities.
- When respondents gauged various aspects of the city government performance, the highest ratings were given to the direction the city is taking with respect to open space, trails and parks (82% excellent or good).
- About 19% of respondents selected open space as one of the top three most pressing issues facing Littleton in the next two years. This was the fourth most commonly selected issue. Trails and leisure activities were less often selected as an issue in comparison to the other items listed, which could indicate residents' satisfaction with the current offerings.

Residents felt positively about the Littleton Police Department but communication with the public could be improved.

- Eighty-five percent of survey respondents rated the quality of the Littleton Police Department as excellent or good. These high marks remained stable over time and were higher than those given by residents in other communities across the nation and in the Front Range.
- Several new questions were added to the 2018 survey about resident interactions with and perceptions of the City of Littleton Police Department. About 30% of respondents indicated they had been in contact with the Police Department at least once in the 12 months prior to the survey.
- The 30% of residents who had contact with the Police Department evaluated their interactions with the employee in their most recent contact. Overall, at least two-thirds of respondents gave positive reviews to their interaction with the Police Department employee. The employee's courteousness, fairness, knowledge and use of force in a fair and effective way were given the highest evaluations.
- All survey respondents assessed the quality of six specific services provided by the Littleton Police Department. Of those who had an opinion about these services, at least 8 in 10 gave excellent or good ratings to the Police Department assisting fire responders with disaster, maintaining public order and crime prevention. Protecting individual civil rights, providing public information and education and crime solving were thought to be excellent or good by closer to 7 in 10 respondents.
- Littleton resident's ratings of crime prevention were much higher than those given by residents in other communities across the nation and in the Front Range.
- Survey respondents assessed various aspects of the Police Department's community relations. Of those who had an opinion, residents felt most positively about the Police Department responding to citizens' emergency calls for service, being trustworthy, acting in the best

interest of the community and caring about the well-being of the people they deal with. Communicating regularly with community members and inviting community members to provide input were rated less favorably.

- Residents evaluated 12 potential priorities for the Littleton Police Department in the next two years. The highest priorities were school safety (74% rated it as a high priority) and violent crimes (67% high priority).

Background and Methods

Survey Purpose

The City of Littleton contracted with National Research Center, Inc. (NRC) to conduct its fourth administration of a community-wide resident survey, with the baseline survey conducted in 2012. The Littleton Resident Survey serves as a consumer report card for the city by providing residents the opportunity to rate city services, local government, community amenities and the quality of life in the city. The survey also gives residents the opportunity to provide feedback to the city on what is working well and what is not, and to communicate their priorities for community planning and resource allocation.

The focus on the quality of service delivery and the importance of services helps council, staff and the public to set priorities for budget decisions and lays the groundwork for tracking community opinions about the core responsibilities of Littleton city government, helping to assure maximum service quality over time.

This type of survey addresses the key services that local governments provide to create a quality community. It is akin to private sector customer surveys that are used regularly by many corporations to monitor where there are weaknesses in product or service delivery before customers defect to competition or before other problems from dissatisfied customers arise. Because a survey such as this generally measures resident perceptions of services and the community, it is a different window into performance than customary tracking of service delivery response times or other observable conditions.

Survey Methods

The 2018 survey was mailed to 3,000 randomly selected Littleton households in February 2018. Residents first received a pre-notification postcard that introduced the survey and explained its importance. One week after the postcard mailed, residents were sent a survey packet. This packet included the 2018 survey, a letter from the Mayor explaining the study and a postage-paid pre-addressed envelope in which to return the completed survey. The cover letter included a URL to access the web survey for those who preferred to complete the survey online. A second packet with the same contents was sent to selected households one week after the first packet. Completed surveys were collected over a six week period. Of the 3,000 surveys mailed to the selected households, 4% were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. A total of 721 residents completed a survey (110 of these were completed online) for a response rate of 25%. Typical response rates for general resident surveys range from 20% to 35%.

The survey results were weighted by respondent gender, age, tenure (rent or own), housing unit type (attached or detached) and ethnicity to ensure that the results were representative of the entire adult population in Littleton. For more information on the methodology see *Appendix E: Survey Methodology* and for a copy of the survey see *Appendix F: Survey Materials*.

How the Results Are Reported

In the body and narrative of the report, the results for each question are presented using either the full set of response frequencies or the “percent positive.” The percent positive is the combination of the top two most positive response options (i.e., “excellent” and “good,” “strongly agree” and “somewhat agree,” or “essential” and “very important,” etc.).

On many of the questions in the survey, respondents could give an answer of “don’t know.” The proportion of respondents giving this reply is shown in the full set of responses included in *Appendix A: Responses to Survey Questions* and is discussed in the body of this report if it is 30% or greater. However, these responses have been removed from the analyses presented in the body of the report, unless otherwise indicated. In other words, the majority of the tables and graphs in the body of the report display the responses from respondents who had an opinion about a specific item.

For some questions, residents were permitted to select multiple responses. When the total exceeds 100% in a table for a multiple response question, it is because some respondents are counted in multiple categories. When a table for a question that only permitted a single response does not total to exactly 100%, it is due to the customary practice of rounding values to the nearest whole number.

Precision of Estimates

It is customary to describe the precision of estimates made from surveys by a level of confidence (or margin of error). The 95% confidence interval for this survey is generally no greater than plus or minus four percentage points around any given percent reported for the entire sample (721 completed surveys).

Comparing Survey Results by Respondent Subgroups

Selected survey questions were compared by certain respondent demographic characteristics as well as the city council district of residence, and are discussed in *Appendix C: Comparisons of Select Survey Results by Respondent Subgroups*.

Comparing Survey Results over Time

The 2018 survey was the fourth administration of the Littleton Resident Survey and the 2018 results are presented along with ratings from the prior surveys, when a comparison was available. Differences between the 2018 and 2016 survey results can be considered “statistically significant” if they are six percentage points or more around any given percent. Trend data for Littleton represent important comparison data and should be examined for improvements or declines. Deviations from stable trends over time especially represent opportunities for understanding how local policies, programs or public information may have affected residents’ opinions.

Comparing Survey Results to Other Communities

NRC’s database of comparative resident opinion is comprised of resident perspectives gathered in citizen surveys from more than 600 jurisdictions whose residents evaluated local government services. Conducted with typically no fewer than 400 residents in each jurisdiction, opinions are intended to represent over 30 million Americans.

National and Front Range benchmark comparisons have been included in this report when similar questions are available for comparison from NRC's database and there are at least five jurisdictions in which the question was asked, though most questions are compared to more than five other cities across the country or in the Front Range. Data for a number of items on the survey were not available in the benchmark database (e.g., some of the services or aspects of the community or quality of life). These items are excluded from the benchmark tables.

Where comparisons for quality ratings were available, Littleton's results were generally noted as being "higher" than the benchmark, "lower" than the benchmark, or "similar" to the benchmark. In instances where ratings are considerably higher or lower than the benchmark, these ratings have been further demarcated by the attribute of "much" (for example, "much lower" or "much higher"). Additional information on NRC's benchmarking database, including jurisdictions to which Littleton was compared nationally and in the Front Range can be found in *Appendix D: Detailed Benchmark Comparisons*.

Resident Survey Results

Quality of Life and Community

Residents assessed a number of aspects of quality of life and the community in general. They also shared their reasons for living in the community and their opinions on the most pressing issues facing Littleton in the next two years.

Aspects of Quality of Life

More than 9 in 10 survey respondents gave positive marks to the overall quality of life in Littleton. This rating has remained stable since this question was first asked in 2012. Littleton residents gave much higher ratings to the overall quality of life in their community when compared to other communities across the nation and in the Front Range (see *Appendix D: Detailed Benchmark Comparisons*).

Figure 1: Overall Quality of Life Compared by Year

When evaluating other aspects of quality of life in the community, about three-quarters or more of residents gave favorable ratings. The city as a place to live (96% excellent or good), as a place to raise children (92%) and their neighborhood as a place to live (89%) received the highest evaluations. Generally these ratings were similar to 2016, except for the city as a place to retire which declined from 2016 to 2018.

Compared to other communities across the country and in Colorado's Front Range, Littleton residents tended to give ratings that were much higher for these aspects of quality of life.

Figure 2: Community Quality Compared by Year

About 32% of respondents selected "don't know" when evaluating the city as a place to retire (see Appendix A: Responses to Survey Questions for a full set of responses, including "don't know").

Living in Littleton

Survey respondents indicated their reasons for living in Littleton. The most commonly cited reasons included liking the location in general (80%), feeling safe (61%) and liking their neighborhood (58%). These also were the top rated reasons in past survey years. Less than half of respondents selected the other options presented in the question as reasons why they lived in Littleton. Six percent of respondents wrote in some “other” reason for living in Littleton. These written-in responses can be found in *Appendix B: Verbatim Responses to Open-ended Survey Questions*. Overall, the proportion of respondents selecting each reason for living in the community has remained stable over time.

Figure 3: Reasons for Living in Littleton Compared by Year

What are your reasons for living in Littleton? (Please select all that apply.)	2018	2016	2014	2012
I like the location in general	80%	80%	78%	78%
I feel safe here	61%	64%	65%	61%
I like my neighborhood	58%	58%	62%	58%
I have friends and family in the area	43%	43%	38%	42%
Sense of community	30%	34%	33%	31%
I like the school my children attend	26%	25%	29%	27%
Cost of living is affordable	20%	26%	30%	30%
I've always lived here	15%	16%	17%	15%
Housing and rental rates are affordable	14%	19%	21%	20%
I like living in a college town	4%	5%	4%	3%
Proximity to work/work here	4%	2%	2%	NA
Parks, recreation and open space	4%	NA	NA	NA
Attending school in Littleton	1%	3%	NA	NA
Other	6%	3%	6%	11%

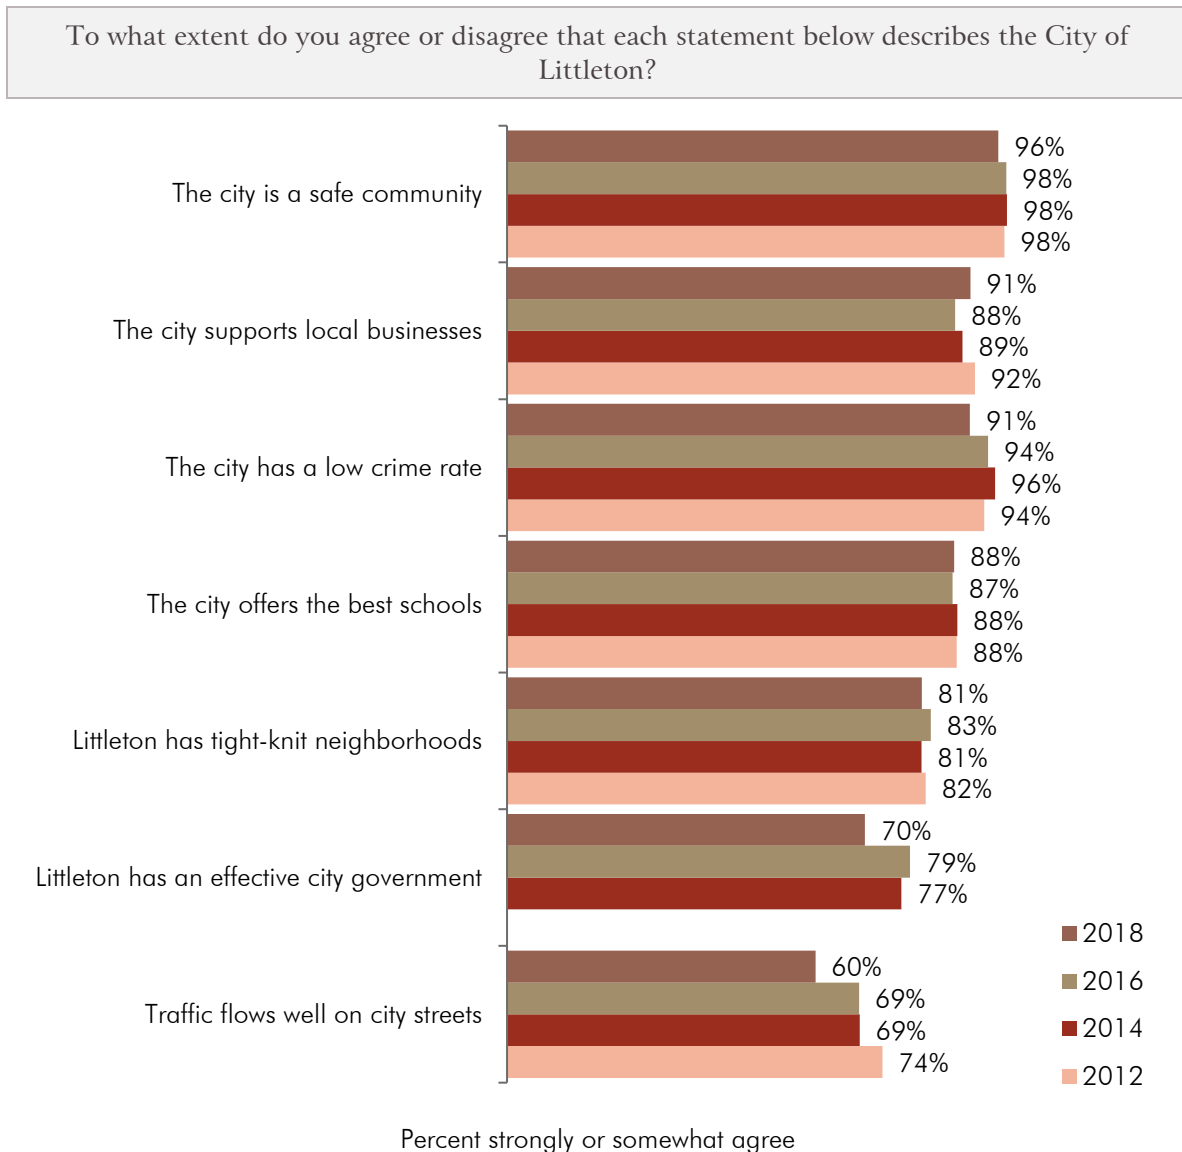

“Parks, recreation and open space”, “Proximity to work/work here” and “attending school in Littleton” were not response options included on the survey but were categories created from the “other” written-in responses.

Total may exceed 100% as respondents could choose more than one answer.

Community Attributes

Littleton residents rated their level of agreement with seven different statements that could potentially describe the community. At least 6 in 10 respondents agreed with each statement. Nearly all residents agreed that the city was a safe community (96% strongly or somewhat agreed). About 9 in 10 agreed that the city supported local businesses and had a low crime rate (91% and 91%, respectively). Respondents were less likely to agree that traffic flowed well on city streets; a ratings which declined from 2016 to 2018. Levels of agreement with most of the other statements were stable across the survey administrations; however, fewer people in 2018 compared to 2016 agreed that Littleton had an effective city government.

Figure 4: Community Characteristics Compared by Year

Roughly one-third of respondents selected “don’t know” when assessing their level of agreement with the statements “the city offers the best schools.” A full set of responses, including “don’t know,” can be found in *Appendix A: Responses to Survey Questions*.

Safety in Littleton

Overall, residents felt safe in Littleton. All or nearly all respondents indicated they felt safe in Downtown Littleton, in Littleton overall and in their neighborhood during the day. About 9 in 10 residents felt somewhat or very safe in the other areas in Littleton and at night in the city. Evaluations of safety have remained stable across the four survey administrations.

Where comparisons were available to other communities across the country and in the Front Range, Littleton residents' felt as safe or safer compared to the benchmarks.

Figure 5: Feelings of Safety in Littleton Compared by Year

Please tell us how safe you feel in each of the following areas in Littleton. (Percent very or somewhat safe)	2018	2016	2014	2012
Downtown Littleton during the day	100%	100%	100%	100%
Littleton overall during the day	99%	99%	100%	99%
Your neighborhood during the day	98%	98%	99%	99%
Downtown Littleton at night	92%	95%	96%	92%
Parks, trails, natural open space areas	90%	93%	90%	92%
Littleton overall at night	90%	93%	90%	92%
Your neighborhood at night	88%	90%	89%	89%

Most Pressing Issues Facing the City

Survey respondents identified the three most pressing issues facing the City of Littleton in the next two years. As in past years, traffic in general topped the list of concerns and the proportion of respondents selecting this has increased in each survey iteration (from 48% in 2016 to 60% in 2018). Aging or outdated commercial areas (34%) and street maintenance (31%) also continued to be viewed as one of the top three issues facing the city, though slightly fewer residents in 2018 compared to 2016 selected street maintenance as one of their top three concerns. Less than one in five respondents selected the other potential issues as one of their top three and 8% of respondents wrote in an “other” issue (these comments can be found in *Appendix B: Verbatim Responses to Open-ended Survey Questions*).

Generally, evaluations of the potential issues remained stable over time. In addition to the changes noted above to the selection of traffic in general and street maintenance, fewer respondents in 2018 compared to 2016 selected business attraction and job growth as one of the three most pressing issues.

Figure 6: Most Pressing Issues in Littleton Compared by Year

Please identify up to three issue you believe are the most pressing issues facing Littleton in the next two years.	2018	2016	2014	2012
Traffic in general	60%	48%	40%	29%
Aging or outdated commercial areas	34%	30%	31%	NA
Street maintenance	31%	37%	28%	23%
Open space	19%	19%	11%	15%
Business retention	17%	22%	29%	29%
Crime reduction	16%	11%	9%	13%
Traffic light synchronization	14%	16%	13%	15%
Business attraction	12%	19%	22%	26%
Neighborhoods	11%	11%	12%	14%
Alternative energy sources	11%	12%	13%	16%
Job growth	10%	19%	29%	33%
Trails	8%	7%	9%	6%
Affordable housing/cost of living	7%	3%	NA	NA
Maintenance of city properties and buildings	6%	6%	6%	7%
Community image	5%	3%	7%	6%
Leisure activities	5%	7%	5%	5%
Parking (especially downtown)	2%	1%	NA	NA
Too much growth (population, housing, development)	2%	1%	NA	NA
Other	8%	7%	8%	6%

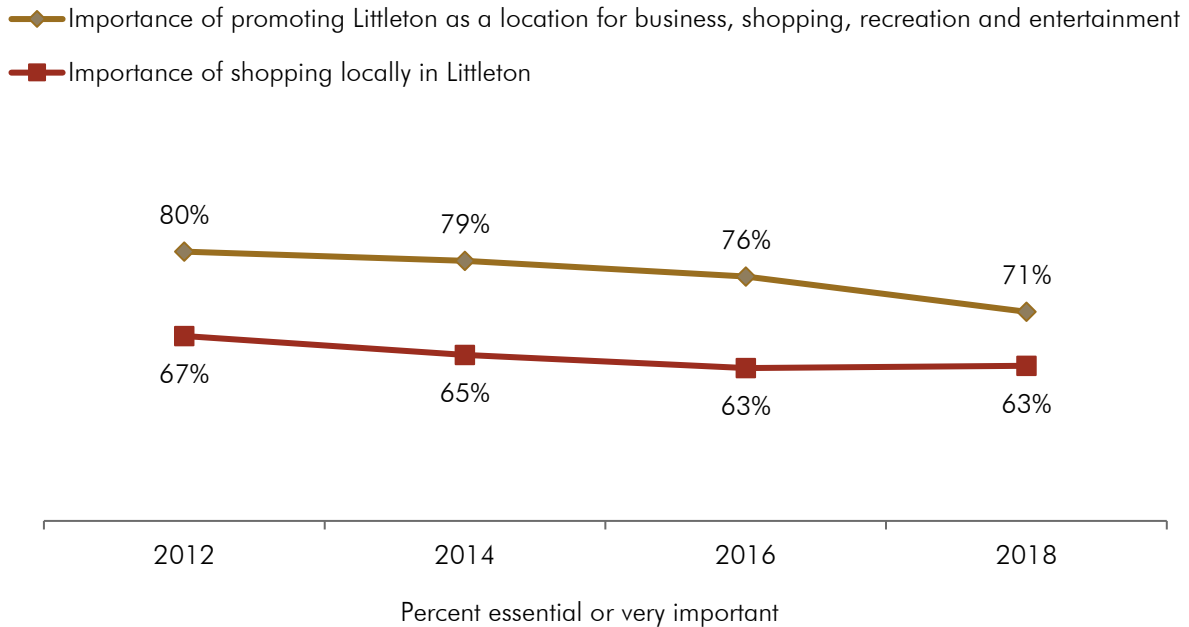

“Parking (especially downtown)”, “affordable housing/cost of living” and “too much growth (population, housing, development)” were not response options included on the survey but were categories created from the “other” written in responses.

Total may exceed 100% as respondents could choose up to three responses.

Promoting the Community

Residents identified their preferences for shopping in the community and for the local government to promote the community as a place to do business and spend money. About 6 in 10 survey respondents felt that it was important to shop locally in Littleton and about 7 in 10 said it was essential or very important for the city to promote itself as a location for business, shopping, recreation and entertainment. While ratings of the importance of shopping locally remained stable over time, the importance of promoting Littleton has been slowly declining over the last six years.

Figure 7: Importance of Shopping in and Marketing Littleton Compared by Year

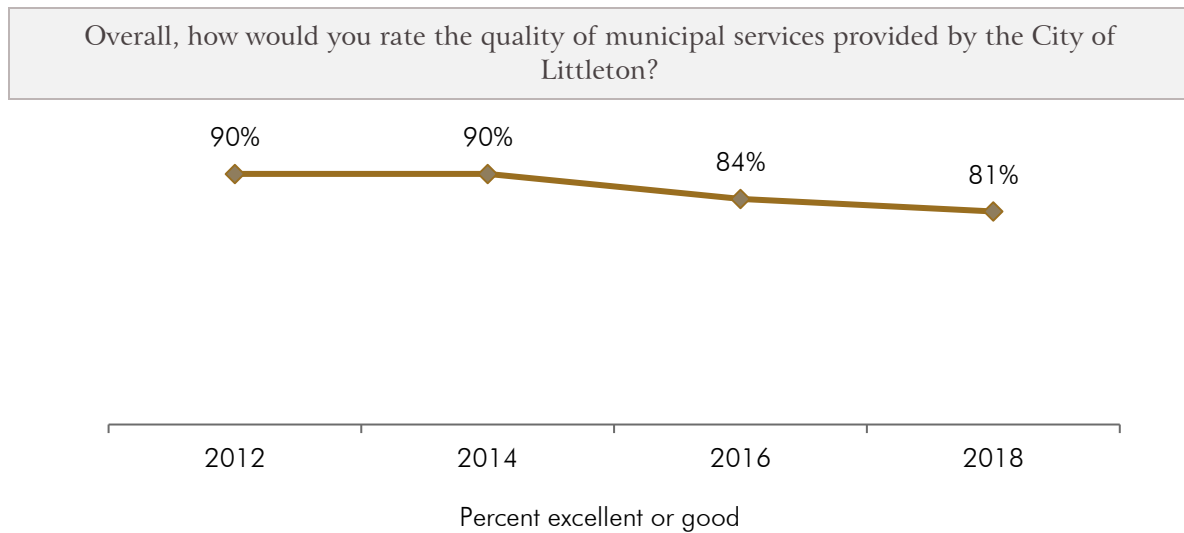

City Services

Service delivery is a key function of any local government and enhances residents' quality of life. Residents evaluated their satisfaction with and the importance of a variety of city services, including transportation, the Bemis Library, the Littleton Museum and the Police Department.

Overall Quality of Services

About 8 in 10 residents felt the overall quality of services in Littleton was excellent or good. While this rating was stable from 2016 to 2018, it has declined from 2014. However, when compared to the benchmarks, Littleton residents gave evaluations that were higher than residents in other communities.

Figure 8: Overall Service Quality Compared by Year

City Service Quality and Importance

Survey respondents assessed the quality and importance of 30 services provided by the City of Littleton. Overall, a majority of respondents gave favorable ratings to the quality of most services (see Figure 9 on the next page). At least 9 in 10 respondents gave excellent or good marks to Littleton Fire Rescue and to various cultural and outdoor facilities such as the Carson Nature Center, South Platte Park, the Littleton Museum, parks and trails, Hudson Gardens and Bemis Library. Residents felt less positively about job opportunities, traffic flow and downtown parking.

Most service ratings remained stable from 2016 to 2018. However, increases in quality ratings were observed for Carson Nature Center and snow plowing, while decreases in quality ratings were seen for the Municipal Court, traffic enforcement, City management and downtown parking. Looking across all survey years, evaluations of traffic flow and downtown parking have been decreasing steadily.

Where comparisons were available to other communities across the nation and in the Front Range, Littleton residents generally provided ratings that were higher than or similar to the benchmarks. However, compared to the nation, lower ratings were given by Littleton residents for traffic flow, snow plowing and Downtown parking (these ratings were similar to the Front Range where a comparison was available).

Figure 9: Quality of Services Provided by Littleton Compared by Year

Please rate the quality of each of the following in Littleton: (Percent excellent or good)	2018	2016	2014	2012
Littleton Fire Rescue	95%	97%	92%	91%
Carson Nature Center	93%	87%	88%	86%
South Platte Park	93%	88%	91%	90%
Littleton Museum	92%	92%	92%	89%
Parks and trails	91%	92%	91%	91%
Hudson Gardens	91%	92%	90%	90%
Bemis Library	90%	91%	90%	89%
Buck Recreation Center	89%	89%	89%	91%
Appearance of city	88%	89%	90%	89%
Recreation opportunities	85%	83%	83%	81%
Littleton Police Department	85%	89%	79%	84%
Open space areas	84%	81%	83%	85%
Town Hall Arts Center	84%	82%	83%	83%
Historic preservation	83%	83%	82%	84%
City-sponsored special events	83%	NA	NA	NA
Online payments of fines and services	74%	75%	71%	75%
Leaf and tire recycling	74%	70%	83%	77%
Public transit services	72%	74%	78%	74%
Municipal Court	70%	76%	71%	75%
Household Haz Mat Roundup	70%	71%	80%	76%
Shopping opportunities	67%	71%	63%	64%
Environmental sustainability	67%	66%	66%	67%
Traffic enforcement	63%	71%	70%	74%
Code enforcement	62%	62%	63%	66%
Snow plowing	61%	50%	58%	50%
City management	61%	67%	65%	NA
Economic development	58%	62%	60%	58%
Job opportunities	41%	38%	38%	34%
Traffic flow	41%	46%	51%	59%
Downtown parking	22%	31%	36%	37%

For many services, between 30% and 60% of respondents selected “don’t know” when rating their quality. (The full set of responses, including “don’t know,” can be found in *Appendix A: Responses to Survey Questions*.)

The importance of the same 30 services was measured and a majority of Littleton residents felt most of the city-provided services were essential or very important. Police and Fire services topped the list as the most important, followed by traffic flow, City management and parks and trails. About 9 in 10 respondents felt each of these services were essential or very important. Shopping opportunities, Town Hall Arts Center and leaf and tire recycling were deemed relatively less important services, although 6 in 10 respondents felt these were essential or very important services.

At least one-quarter of respondents selected “don’t know” when evaluating the importance of seven of the 31 city services (see *Appendix A: Responses to Survey Questions.*)

Importance ratings of almost all of the services tended to stay the same across survey administrations. The one exception was leaf and tire recycling which was rated less important in 2016 compared to 2014.

Figure 10: Importance of Services Provided by Littleton Compared by Year

Please rate how important, if at all, each is to you. (Percent essential or very important)	2018	2016	2014	2012
Littleton Fire Rescue	96%	96%	92%	96%
Littleton Police Department	96%	96%	91%	95%

Town Hall Arts Center	63%	61%	56%	57%
Leaf and tire recycling	62%	59%	66%	71%

Balancing Quality and Importance

Ratings of importance were compared to ratings of quality to help guide city staff and officials with decisions on future resource allocation. Most government services are considered to be important, but when competition for limited resources demands that efficiencies or cutbacks be instituted, it is wise not only to know what services are deemed most important to residents' quality of life, but which services among the most important are perceived to be delivered with the lowest quality. It is these services – more important services delivered with lower quality – to which attention needs to be paid first.

To identify the services perceived by residents to have relatively lower quality at the same time as relatively higher importance, all services were ranked from highest perceived quality to lowest perceived quality and from highest perceived importance to lowest perceived importance. Some services were in the top half of both lists (higher quality and higher importance); some were in the top half of one list but the bottom half of the other (higher quality and lower importance or lower quality and higher importance) and some services were in the bottom half of both lists.

Services were classified as “more important” if they were rated as “essential” or “very important” by 78% or more of respondents. Services were rated as “less important” if less than 78% of respondents rated them as “essential” or “very important.” Services receiving quality ratings of “excellent” or “good” by 78% or more of respondents were considered of “higher quality” and those rated “excellent” or “good” by fewer than 78% were considered to be of “lower quality.” This classification created four quadrants based on the ratings of quality and importance for each service. The services falling into each quadrant are listed in Figure 11 on the following page. The four figures on pages 21 to 24 display the services in each quadrant and the relative placement of each.

Typically, services that are rated relatively higher in importance and lower in quality (Figure 12) represent potential priority areas for improvement for the city. In 2018, these included: traffic flow, City management, snow plowing, public transit services, environmental sustainability, traffic enforcement and economic development (similar to what was seen in 2016 and 2014). Snow plowing was rated lower than the national benchmarks but saw an improvement in quality ratings from 2016 to 2018. Traffic flow was rated lower than to the nation but similar to the Front Range benchmark and ratings have decreased significantly since 2012. These two services might be areas city staff and officials wish to investigate or continue to make improvements.

Higher importance and higher quality services (Figure 13) included: Littleton Police Department, Littleton Fire Rescue, appearance of city, parks and trails, open space areas, Bemis Library, recreation opportunities and South Platte Park.

Lower importance and lower quality services (Figure 14) included: code enforcement, Municipal Court, Household Haz Mat Roundup, job opportunities, downtown parking, online payments of fines and services, shopping opportunities and leaf and tire recycling.

Lower importance and higher quality services (Figure 15) included: Buck Recreation Center, historic preservation, Littleton Museum, Hudson Gardens, Carson Nature Center, City-sponsored special events and Town Hall Arts Center.

Figure 14: Services Rated Lower in Importance and Lower in Quality

Figure 15: Services Rated Lower in Importance and Higher in Quality

Transportation in Littleton

The quality of 10 aspects of transportation and travel was assessed on the survey. Light rail was positively evaluated by residents with more than 8 in 10 giving excellent or good ratings to the Downtown Littleton and Mineral Avenue light rail stations. This was similar to what was seen in previous survey years. Fewer residents gave favorable reviews to street maintenance and traffic congestion. While most transportation ratings have remained stable across the four survey administrations, evaluations of ease of driving, street maintenance and traffic congestion have been declining.

The six aspects of transportation and travel in Littleton that could be compared to the national and Front Range benchmarks generally were rated higher. However, street maintenance in Littleton was rated similar to the nation and Front Range and ease of driving was rated similar to the nation (but higher than the Front Range).

Figure 16: Aspects of Transportation Compared by Year

Please rate the following areas of transportation in Littleton. (Percent excellent or good)	2018	2016	2014	2012
Downtown Littleton light rail station	87%	89%	87%	91%
Mineral Avenue light rail station	84%	87%		
Ease of traveling by light rail	82%	83%	84%	89%
Omnibus/Shopping Cart senior and disabled van service	81%	79%	82%	80%
Ease of walking in the city	79%	82%	84%	84%
Ease of traveling by bicycle	78%	76%	76%	77%
Ease of driving	70%	75%	72%	80%
Ease of traveling by bus (RTD)	58%	62%	66%	62%
Street maintenance	47%	44%	56%	66%
Traffic congestion	28%	34%	37%	42%

Prior to 2016, "Downtown Littleton light rail station" and "Mineral Avenue light rail station" were worded as a single item on the survey, "Littleton light rail stations (Downtown and Mineral Avenue)".

When evaluating ease of travel by bus (RTD) and Omnibus/Shopping cart senior/disabled van service, more than 20% of respondents answered "don't know." The full set of responses, including "don't know," can be found in Appendix A:

Responses to Survey Questions.

Bemis Public Library

Respondents were asked to evaluate seven aspects of the Bemis Public library and its services. Between about one-third and about one-half of respondents selected “don’t know” when rating aspects of the library (see *Appendix A: Responses to Survey Questions* for a full set of responses including “don’t know”). Of the respondents who had an opinion, at least 85% gave positive reviews to each library service. Almost all residents gave favorable reviews to the overall performance of the Bemis Library, library programs and library services. Ratings for all aspects of the Bemis Public Library have remained stable over time. The overall quality of the library was rated much higher than in other communities across the nation and in the Front Range.

Figure 17: Aspects of Bemis Public Library Compared by Year

Please circle the number that comes closest to your opinion about Littleton's Bemis Public Library and its services: (Percent excellent or good)	2018	2016	2014	2012
Overall performance of the library	94%	93%	93%	91%
Library programs (e.g., story time, Summer Reading program, etc.)	93%	96%	96%	94%
Library services (e.g., reference desk, check out, etc.)	93%	95%	94%	93%
Internet and computer services	92%	89%	92%	87%
Library building and grounds	90%	89%	89%	88%
Online services at www.littletongov.org/bemis accessed from home or elsewhere (e.g., book holds, access databases, research, etc.)	86%	90%	89%	83%
Materials and collections	85%	84%	84%	81%

Littleton Museum

The quality of various services and programs provided at the Littleton Museum also was measured. Between 40% and 70% of respondents selected “don’t know” when rating each aspect of the museum (see *Appendix A: Responses to Survey Questions* for a full set of responses including “don’t know”). Of those who had an opinion about the museum, at least 85% gave excellent or good ratings to each aspect on the list. The overall performance of the Littleton Museum and the building and grounds received the highest marks. Compared to 2016, most assessments of the museum and its services were similar in 2018. However, fewer respondents in 2018 compared to 2016 gave favorable assessments to the art shows in the galleries.

Figure 18: Aspects of Littleton Museum Compared by Year

Please circle the number that comes closest to your opinion about the Littleton Museum and its services: (Percent excellent or good)	2018	2016	2014	2012

Museum rotating exhibits	87%	90%	86%	84%
Museum research center	85%	88%	87%	87%
Art shows in the galleries	85%	93%	88%	84%

Littleton Police Department

Several new questions were added to the 2018 survey to measure contact with and feelings about the Littleton Police Department. About 30% of respondents said they had contact with the Police Department in the 12 months prior to the survey. One-quarter of residents had been in contact with the Police Department 1-2 times, 4% were in contact 3-5 times and 1% had contact with the Police Department 6 times or more.

Figure 19: Contact with Littleton Police Department, 2018

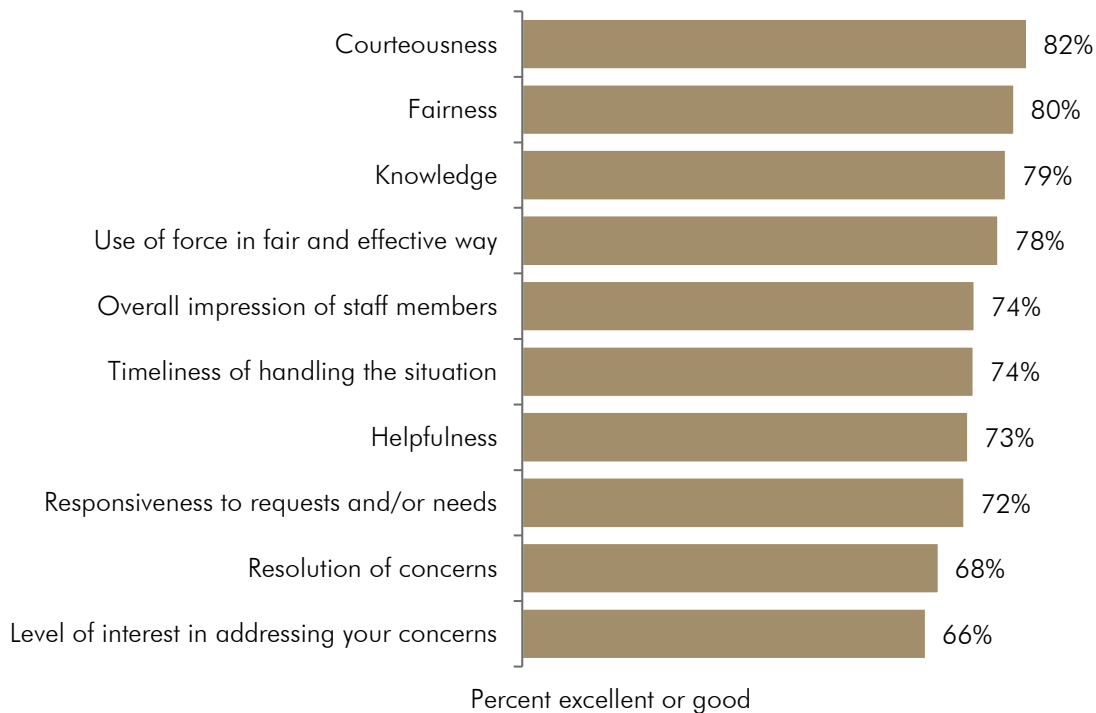

If you had contact with the City of Littleton Police Department, please indicate about how many times you've been in contact over the last 12 months.

The 30% of residents who had been in contact with the Police Department evaluated their most recent interaction with a Police Department employee. Overall, at least two-thirds of respondents gave positive reviews to their interaction with the Police Department employee. About 8 in 10 rated the employee's courteousness, fairness, knowledge and use of force in a fair and effective way as excellent or good. Slightly fewer respondents felt positively about how the employee resolved their concerns and the employee's level of interest in addressing their concerns.

Figure 20: Treatment by Littleton Police Department Employee, 2018

Based on your most recent contact with a member of the Littleton Police Department, please rate each of the following aspects of the employee with whom you had contact.

Asked only of those who reported having contact with a City of Littleton Police Department employee in the last 12 months.

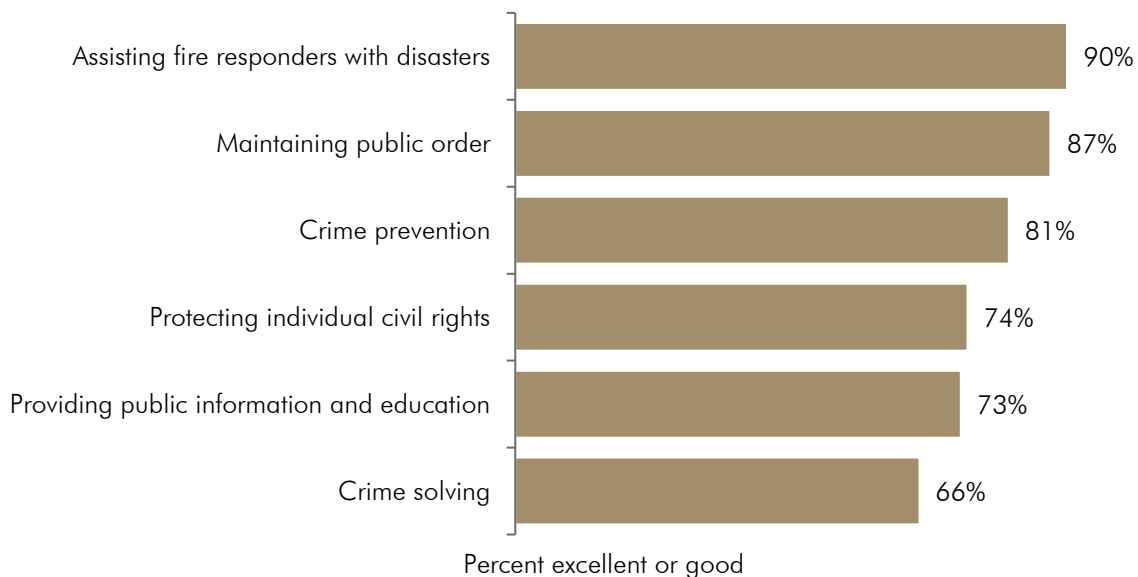

About 50% of respondents said "don't know" when evaluating the employee's use of force in fair and effective ways. The full set of responses, including "don't know," can be found in *Appendix A: Responses to Survey Questions*.

All survey respondents assessed the quality of six specific services provided by the Littleton Police Department. However, between 30% and 60% of respondents said “don’t know” when evaluating services provided by the Police Department. (The full set of responses, including “don’t know,” can be found in *Appendix A: Responses to Survey Questions*.) Of those who had an opinion, 90% gave excellent or good ratings to the Police Department assisting fire responders with disaster and 87% gave favorable reviews to the Department maintaining public order. Crime prevention was rated favorably by about 8 in 10 respondents and other aspects received positive ratings by at least two-thirds of those with an opinion.

Only ratings of crime prevention could be compared to the benchmark and Littleton residents gave evaluations that were much higher than residents in other communities across the nation and in the Front Range.

Figure 21: Quality of Services Provided by the Littleton Police Department, 2018

Please rate the job the Littleton Police Department does at each of the following in Littleton.

Survey respondents shared their opinions about the relationship the Police Department has with the community. Between 30% and 60% of respondents said “don’t know” when evaluating this relationship (see *Appendix A: Responses to Survey Questions*). Of those who had an opinion, at least 6 in 10 residents gave excellent or good reviews to each aspect. Residents felt most positively about the Police Department responding to citizens’ emergency calls for service, being trustworthy, acting in the best interest of the community and caring about the well-being of the people they deal with. Communicating regularly with community members and inviting community members to provide input were rated less favorably.

Figure 22: Community Relationship with the Littleton Police Department, 2018

City Government

Littleton residents shared their perspectives of the City of Littleton government's performance as well as their priorities for the city council's goals and objectives. Learning whether residents' priorities for the community align with community leaders can guide the overall direction the city is taking.

Government Performance

Seventeen aspects of city government performance were evaluated by survey respondents. Between 30% and 50% of residents selected "don't know" when assessing each of these aspects (see *Appendix A: Responses to Survey Questions* for a full set of responses including "don't know"). Of those who had an opinion, more than half of respondents gave favorable ratings to most aspects of government performance. The direction the city is taking with respect to open space, trails and parks was the most favorably rated (82% excellent or good), followed by the quality of work provided by city employees (69%), although ratings for the quality of work provided by city employees declined from 2016 to 2018. About 6 in 10 residents rated the overall direction the city is taking and the job the city government does welcoming citizen involvement as excellent or good. However, ratings of the overall direction decreased from 2016 to 2018. Evaluations of the other aspects Littleton's government performance in 2018 were similar to 2016.

Four of the 17 government performance ratings could be compared to the national benchmark. Evaluations of the Littleton government generally were higher than or similar to the national average. Of the three aspects of city government performance that could be compared to the Front Range, one was rated higher than the Front Range (the job the city does at welcoming citizen involvement) and two were similar (the value for property taxes paid and the overall direction the city is taking).

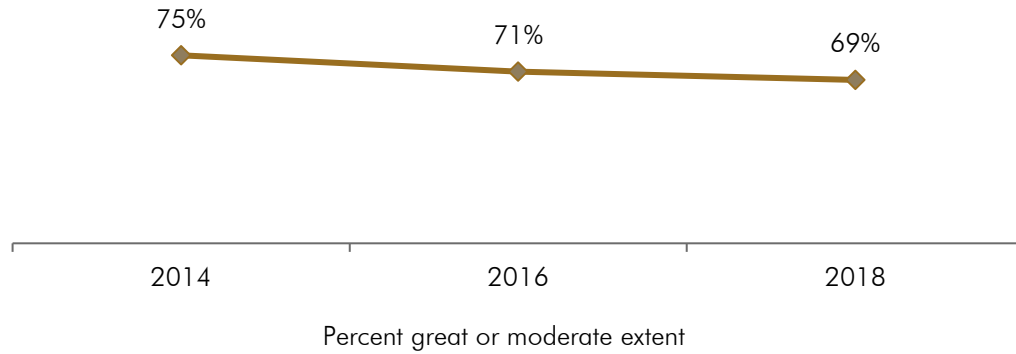

Figure 23: Littleton Government Performance Compared by Year

Please rate the following categories of Littleton government performance. (Percent excellent or good)	2018	2016	2014	2012
The direction the city is taking with respect to open space, trails and parks	82%	85%	86%	85%
The quality of work provided by City of Littleton employees	69%	75%	77%	78%
The overall direction the city is taking	61%	68%	66%	69%
The job the city government does at welcoming citizen involvement	60%	64%	61%	62%
Holding public meetings about city plans	59%	61%	63%	72%
The city manager's management of city operations	57%	59%	57%	69%
A city government that is run efficiently	55%	59%	56%	65%
Running Littleton's local government in the best interest of residents	55%	54%	54%	61%
Attracting companies to locate in Littleton	54%	55%	51%	52%
The value of services for the property taxes paid to Littleton	54%	60%	57%	61%
Providing information about city plans and programs	54%	58%	57%	62%
Opportunities to participate in city government decisions	52%	51%	50%	60%
Spending local tax dollars wisely	51%	55%	53%	59%
Responding to citizen complaints and concerns	48%	44%	48%	57%
Littleton's elected officials' consideration of what people like me think	47%	43%	43%	56%
Littleton's government as an example of how best to provide services	47%	53%	53%	64%
Being transparent and accountable to the public	47%	48%	50%	58%

In 2018, almost 7 in 10 residents believed that city council decisions represent the best interest of citizens to a great or moderate extent. This rating was similar to 2016 but lower than 2014.

Figure 24: Council Decisions Represent Best Interest of Citizens Compared by Year

To what extent do you trust that the decisions made by city council represent the best interest of citizens?

Prioritizing City Council Goals and Objectives

Littleton residents considered the level of effort they felt the city should apply to each of the seven city council goals and objectives. As in previous years, respondents were more likely to feel that the same amount or more effort should be applied to each goal and few thought there should be less effort. Just under half of respondents thought that more effort should be put into developing and maintaining public infrastructure (48%), fostering community involvement, communication and trust (48%), promoting environmental sustainability (47%) and pursuing a balanced and sustainable local economy (46%). Fewer supported increasing efforts to provide a safe community (42%), assure a financially sound city government (40%) and preserve and cultivate a quality community (37%). Conversely, this means about half or just over half thought the same levels of effort should be made toward each goal.

Overall, these evaluations remained stable between survey administrations. However, where changes in opinion were seen, more residents in 2018 compared to 2016 wanted to see more effort put toward each goal while fewer residents in 2018 wanted the same amount of effort.

Figure 25: Resident Priorities for Council Goals Compared by Year

Thinking about what you currently know regarding each of the following city council goals and objectives, please indicate whether you feel the city should apply more effort, the same amount of effort, or less effort toward each.		2018	2016	2014	2012
Develop and Maintain the Public Infrastructure	More effort	48%	43%	41%	38%
	Same effort	49%	56%	56%	57%
	Less effort	3%	1%	2%	4%
	Total	100%	100%	100%	100%
Foster Community Involvement, Communication and Trust	More effort	48%	42%	46%	35%
	Same effort	49%	54%	52%	57%
	Less effort	4%	4%	2%	8%
	Total	100%	100%	100%	100%
Promote Environmental Sustainability	More effort	47%	43%	39%	39%
	Same effort	42%	47%	49%	51%
	Less effort	11%	11%	12%	10%
	Total	100%	100%	100%	100%
Pursue a Balanced and Sustainable Local Economy	More effort	46%	47%	49%	48%
	Same effort	50%	49%	47%	47%
	Less effort	4%	4%	3%	5%
	Total	100%	100%	100%	100%
Provide a Safe Community to Live, Work and Play	More effort	42%	36%	40%	33%
	Same effort	56%	63%	57%	65%
	Less effort	2%	1%	3%	2%
	Total	100%	100%	100%	100%
Assure a Financially Sound City Government	More effort	40%	38%	47%	43%
	Same effort	56%	59%	52%	55%
	Less effort	4%	3%	2%	2%
	Total	100%	100%	100%	100%
Preserve and Cultivate a Quality Community	More effort	37%	33%	35%	31%
	Same effort	58%	64%	62%	58%
	Less effort	4%	3%	3%	11%
	Total	100%	100%	100%	100%

Community Planning and Prioritization

In addition to providing feedback on the city council goals, residents shared their thoughts on the importance of potential projects in Littleton, priorities for the Police Department and a possible sales and use tax increase to help fund street improvements and other capital projects.

Potential Projects in Littleton

Littleton residents rated the importance of 10 potential projects in Littleton over the next five to eight years and then selected the one as the most important project out of the 10. As rated by residents, the most important were maintaining and improving city infrastructure (77% essential or very important) and reducing traffic congestion on city streets (75%). About 7 in 10 respondents felt that redeveloping aging shopping centers should be a priority for the city in the next five to eight years. Building new trails and expanding programs for immigrants were lower on the list of priorities.

Overall, importance ratings for the various projects were stable from 2016 to 2018, with a few exceptions. The importance of reducing traffic congestion continued to rise from 2016 to 2018, with 2018 receiving the highest levels of importance since the baseline survey in 2012. Maintaining and improving city infrastructure and expanding programs for seniors decreased in perceived importance from 2016 to 2018.

Figure 26: Potential Projects in Littleton Compared by Year

Thinking about the next five to eight years, how important is each of the following potential projects in Littleton? (Percent essential or very important)	2018	2016	2014	2012
Maintaining and improving city infrastructure (e.g., streets, sidewalks, buildings, etc.)	77%	89%	NA	NA
Reducing traffic congestion on city streets	75%	63%	57%	53%
Redeveloping aging shopping centers	70%	65%	71%	74%
Expanding programs for youth	62%	67%	60%	63%
Partnering strategically and financially with the private sector in development	56%	61%	NA	NA
Continuing preservation programs for historic buildings	55%	56%	54%	47%
Redeveloping older neighborhoods	55%	53%	62%	66%
Expanding programs for seniors	55%	61%	57%	59%
Building new trails	47%	47%	44%	43%
Expanding programs for immigrants	38%	38%	32%	32%

"Redeveloping aging shopping centers" was "taking an active role in redevelopment of aging shopping centers" in 2014 and "redeveloping older neighborhoods" was "taking an active role in redevelopment of older neighborhoods." Additionally, "partnering strategically and financially with the private sector in development" was different enough from the 2014 survey question wording that comparisons could not be made.

Littleton residents selected one potential project as the most important for the city to focus on in the next five to eight years. Respondents most frequently chose reducing traffic congestion on city streets (32% selected this as the most important future project) followed by maintaining and improving city infrastructure (25%). More respondents in 2018 compared to 2016 selected reducing traffic congestion as the most important project and fewer felt maintaining and improving city infrastructure was the most important. Importance ratings for the other future projects were similar in 2016 and 2018.

Figure 27: Most Important Potential Project Compared by Year

Check the ONE circle for the item you think is the most important future project for Littleton	2018	2016	2014	2012
Reducing traffic congestion on city streets	32%	18%	23%	18%
Maintaining and improving city infrastructure (e.g., streets, sidewalks, buildings, etc.)	25%	35%	NA	NA
Redeveloping aging shopping centers	9%	12%	27%	27%
Partnering strategically and financially with the private sector in development	8%	9%	NA	NA
Expanding programs for youth	7%	5%	12%	19%
Redeveloping older neighborhoods	5%	8%	18%	18%
Building new trails	4%	3%	6%	6%
Continuing preservation programs for historic buildings	3%	5%	5%	1%
Expanding programs for seniors	3%	4%	5%	7%
Expanding programs for immigrants	3%	2%	4%	3%

"Maintaining and improving city infrastructure (e.g., streets, sidewalks, buildings, etc.)" was new to the 2016 survey.

"Redeveloping aging shopping centers" was "taking an active role in redevelopment of aging shopping centers" in 2014 and "redeveloping older neighborhoods" was "taking an active role in redevelopment of older neighborhoods."

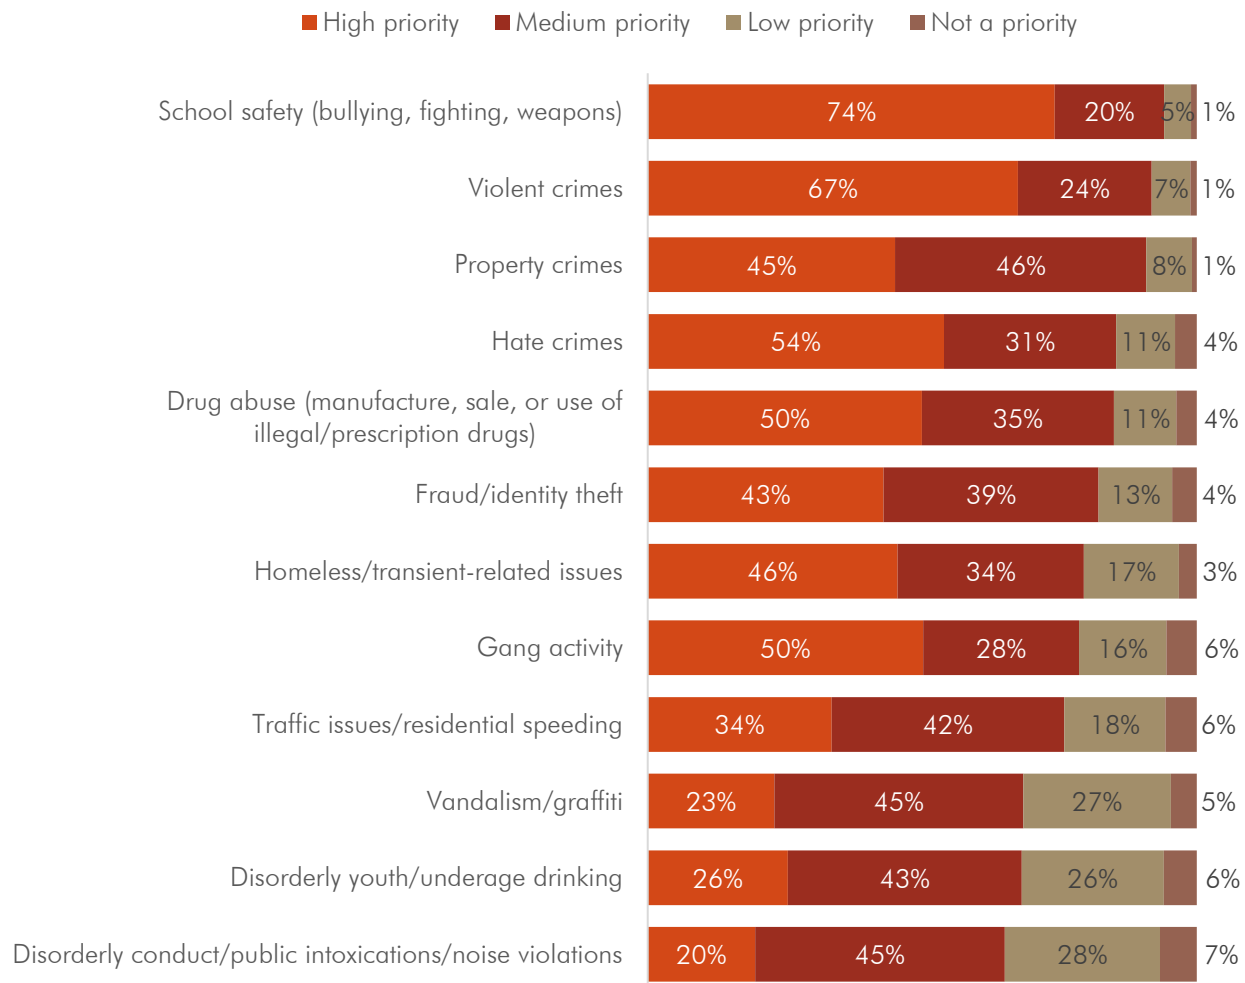

Additionally, "partnering strategically and financially with the private sector in development" was different enough from the 2014 survey question wording that comparisons could not be made.

Police Department Priorities

A new question was added to the survey to help the Littleton Police Department focus its resources in the next two years. Residents felt the highest priority areas for the Police Department should be school safety (74% rated it as a high priority) and violent crimes (67% high priority). About half felt that addressing the areas of hate crimes, drug abuse and gang activity should be a high priority for the Police Department in the next two years. Vandalism/graffiti, disorderly youth/underage drinking and disorderly conduct (including public intoxications and noise violations) were rated as less of a priority, though about two-thirds of residents still felt these should be high or medium priorities.

Figure 28: Resident Priorities for Littleton Police Department, 2018

Please indicate how much of a priority, if at all, you think it is for the City of Littleton Police Department to focus resources on each of the following areas in the next two years.

Level of Support for Taxes

Survey respondents indicated their level of support for, or opposition to, changes to a sales and use tax and a lodging tax.

As in 2016, most residents (82%) supported a three-quarters of a cent increase in the sales and use tax to fund improvements to aging infrastructure. This level of support was similar to that voiced in 2016.

Figure 29: Level of Support for Sales and Use Tax Compared by Year

The city currently has a budget shortfall to fund all the needed improvements to aging infrastructure, such as maintaining streets to an adequate level, maintaining and adding sidewalks and maintaining existing buildings. If the city asked voters to pass a sales and use tax increase of three-quarters of a cent (\$0.0075) on every \$1 which would sunset (expire) in 15 years, to what extent would you support or oppose this increase?

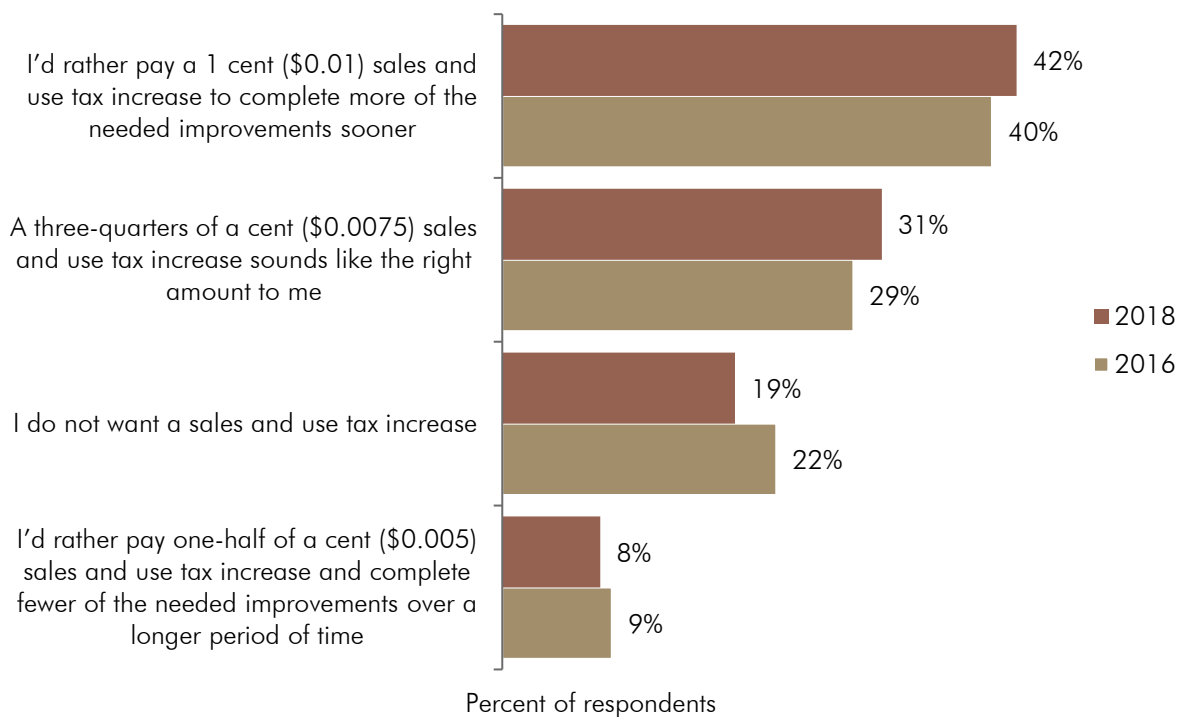

Respondents then shared their preference for different levels of sales and use tax increases that would determine how quickly improvements could be made. About 4 in 10 respondents preferred having a higher increase in the sales and use tax (one cent) to complete more of the needed improvements sooner and around one-third preferred the originally suggested three-quarters of a cent sales and use tax increase. About one in five said they did not want an increase in the sales and use tax at all and only around 8% of respondents selected the lower amount of a one-half of a cent increase. These assessments were similar to those given in 2016.

Figure 30: Preferences for Sales and Use Tax Amounts Compared by Year

A three-quarters of a cent sales and use tax increase will generate approximately \$8.7 million a year, which will help to cover a portion of the costs to make the needed improvements.

However, a higher sales and use tax increase would allow more improvements to be made sooner, while a lower sales and use tax increase would allow fewer improvements over a longer period of time. Thinking about a potential sales and use tax increase, which of the following statements best describe your opinion?

Additionally, residents rated their level of support for a lodging tax that hotel room visitors would pay, the money from which would go towards tourism, marketing and overall promotion of Littleton. As in 2016, 70% of respondents in 2018 said that they would somewhat or strongly support the lodging tax, while about one-third opposed it.

Figure 31: Level of Support for Lodging Tax Compared by Year

To what extent would you support or oppose a lodging tax that hotel room visitors would pay with the money to be used for tourism, marketing and promotion of Littleton?

Information Sources

To communicate better with residents, it is important for local government staff and officials to know where residents get information about the community. Survey respondents evaluated how frequently, if at all, they or other household members used various information sources. As in prior survey years, *The Littleton Report* was a major or minor source of information for the majority of respondents (77%), followed by the city's official website (64%) and the *Littleton Independent* (54%). These have been the top three sources used by residents to get information about the City of Littleton since 2014. Close to half of residents used NextDoor.com as a major or minor source of information, which was an increase from 2016. Use of Littletonrocks.com increased from 2016 to 2018. Comcast Cable Channel 8 as a major or minor source decreased from 2016 to 2018 and use of the *Denver Post* continued its downward trend. Use of the other sources of information remained stable from 2016 to 2018.

Figure 32: Sources of Information about Littleton Compared by Year

Please indicate whether each of the following is a major source, minor source or not a source of information for you when looking for information about the City of Littleton.	2018	2016	2014	2012
The Littleton Report (bi-monthly city newsletter)	77%	81%	82%	70%
Littletongov.org (official city website)	64%	64%	68%	57%
The Littleton Independent (weekly, privately-owned newspaper)	54%	51%	60%	46%
NextDoor.com	45%	25%	NA	NA
Denver Post	43%	48%	55%	65%
Littletonrocks.com (events website)	33%	23%	21%	NA
Openlittleton.org (citizen engagement website)	27%	26%	25%	NA
The City of Littleton's Facebook page (www.facebook.com/CityofLittleton)	26%	24%	23%	NA
The Villager (weekly, privately-owned newspaper)	25%	22%	27%	23%
go2littleton.com2 (economic development website)	21%	19%	18%	NA
Comcast Cable Channel 8 (city government access channel)	20%	26%	28%	26%
Yourhub	19%	23%	28%	22%
The City of Littleton on Twitter (www.twitter.com/CityofLittleton)	15%	13%	12%	NA

The question and scale wording changed from 2012 to 2014. In 2012, respondents were asked to indicate the number of times in the last 12 months they had used each source on a frequency scale. To enable comparisons over time, the 2012 percentages represent those who used a source at least once in the 12 months prior to the 2012 survey and the 2014 percentages represent those who indicated that each was a major or minor source of information.

In addition to assessing their use of information sources, residents rated how important it was that they receive different types of information from the city. Overall, at least half of respondents felt it was essential or very important that they receive most of the types of information presented in the question. Updates in street/traffic/road work, development projects, community planning and city council decisions were among the most important kinds of information residents want to receive from the city. Residents were less interested in receiving information about public asset conditions, code enforcement requirements and the demographics of the community. The relative importance of each topic remained stable from 2016 to 2018.

Figure 33: Importance of Receiving City Information Compared by Year

Please indicate how important it is to you, if at all, to receive information from the city about each of the following topics. (Percent essential or very important)	2018	2016	2014
Street/traffic/road work	72%	75%	72%
Development projects (new residential or commercial buildings or sites)	70%	73%	71%
Community planning (land uses, transportation, etc.)	70%	74%	72%
City council decisions	69%	73%	69%
Police/crime data	64%	66%	66%
Special events (e.g., concerts, races, festivals)	63%	67%	67%
Economic development	63%	67%	67%
City finances/budget	61%	63%	60%
Public asset conditions (streets, city buildings/facilities, etc.)	51%	55%	54%
Code enforcement requirements and current activity	41%	45%	47%
Demographics of the community	34%	41%	40%

Respondent Characteristics

Characteristics of the survey respondents are displayed in following tables.

Table 1: Length of Residency

How many years have you lived in Littleton?	Percent of respondents	Number of respondents
Less than 1 year	10%	N=68
1-5 years	27%	N=188
6-10 years	12%	N=82
11-15 years	10%	N=73
More than 15 years	42%	N=296
Total	100%	N=706

Table 2: Number of Household Members

How many people (including yourself) live in your household?	Percent of respondents	Number of respondents
1	29%	N=201
2	39%	N=274
3 or more	33%	N=230
Total	100%	N=705

Table 3: Number of Household Members Age 12 or Younger

How many children 12 or younger live in your household?	Percent of respondents	Number of respondents
0	77%	N=527
1	10%	N=68
2	9%	N=63
3 or more	3%	N=24
Total	100%	N=681

Table 4: Number of Household Members Ages 13 to 17

How many teenagers ages 13 to 17 live in your household?	Percent of respondents	Number of respondents
0	86%	N=586
1	9%	N=64
2	4%	N=29
3 or more	0%	N=1
Total	100%	N=680

Table 5: Number of Household Members Age 55 or Older

How many people (including yourself) age 55 or older live in your household?	Percent of respondents	Number of respondents
0	58%	N=397
1	24%	N=165
2	18%	N=125
3 or more	1%	N=4
Total	100%	N=691

Table 6: Housing Unit Type

Which best describes the building you live in?	Percent of respondents	Number of respondents
One family house detached from any other houses	54%	N=379
House attached to one or more houses (e.g., a duplex or townhome)	16%	N=114
Building with two or more apartments or condominiums	29%	N=203
Mobile home	1%	N=5
Other	0%	N=3
Total	100%	N=704

Table 7: Housing Tenure (Rent vs Own)

Do you rent or own your home?	Percent of respondents	Number of respondents
Rent	37%	N=262
Own	63%	N=445
Total	100%	N=707

Table 8: Total Household Income for Current Year

How much do you anticipate your household's total income before taxes will be for the current year? (Please include in your total income, money from all sources for all persons living in your household.)	Percent of respondents	Number of respondents
Less than \$24,999	8%	N=54
\$25,000 to \$34,999	9%	N=62
\$35,000 to \$49,999	10%	N=67
\$50,000 to \$74,999	19%	N=125
\$75,000 to \$99,999	17%	N=114
\$100,000 to \$149,999	17%	N=114
\$150,000 to \$199,999	10%	N=69
\$200,000 or more	10%	N=66
Total	100%	N=672

City of Littleton, CO 2018 Resident Survey

Table 9: Respondent Level of Education

What is your level of education?	Percent of respondents	Number of respondents
0-11 years	2%	N=16
High school graduate	8%	N=57
Some college, no degree	13%	N=92
Associate degree	6%	N=39
Bachelors' degree	41%	N=286
Graduate or professional degree	30%	N=213
Total	100%	N=703

Table 10: Respondent Ethnicity

Are you Spanish, Hispanic or Latino?	Percent of respondents	Number of respondents
No, not Spanish, Hispanic or Latino	90%	N=616
Yes, I consider myself to be Spanish, Hispanic or Latino	10%	N=68
Total	100%	N=684

Table 11: Respondent Race

Race	Percent of respondents	Number of respondents
American Indian or Alaskan Native	2%	N=13
Asian, Asian Indian or Pacific Islander	2%	N=14
Black or African American	2%	N=15
White	91%	N=621
Other	7%	N=46

Total may exceed 100% as respondents could select more than one option

Table 12: Respondent Age

In which category is your age?	Percent of respondents	Number of respondents
18-24	2%	N=12
25-34	24%	N=165
35-44	14%	N=99
45-54	23%	N=158
55-64	15%	N=101
65-74	12%	N=86
75+	11%	N=75
Total	100%	N=697

Table 13: Respondent Gender

What is your gender?	Percent of respondents	Number of respondents
Female	52%	N=365
Male	48%	N=333
Total	100%	N=698

Appendix A: Responses to Survey Questions

The following pages contain a complete set of responses to each question on the survey. The percent of respondents giving a particular response is shown followed by the number of respondents. When a question includes a “don’t know” response option, the first table displays the results excluding the “don’t know” responses and the second table displays the results with the “don’t know.”

Table 14: Question 1 without “don’t know” responses

Please rate each of the following aspects of quality of life in Littleton.	Excellent		Good		Fair		Poor		Total	
Littleton as a place to live	52%	N=365	44%	N=310	4%	N=26	1%	N=4	100%	N=704
Your neighborhood as a place to live	44%	N=309	45%	N=317	10%	N=69	1%	N=8	100%	N=703
Littleton as a place to raise children	49%	N=275	43%	N=240	7%	N=37	1%	N=7	100%	N=559

Don’t know	5%	N=38
Total	100%	N=702

Table 58: Question 23

A three-quarters of a cent sales and use tax increase will generate approximately \$8.7 million a year, which will help to cover a portion of the costs to make the needed improvements. However, a higher sales and use tax increase would allow more improvements to be made sooner, while a lower sales and use tax increase would allow fewer improvements over a longer period of time. Thinking about a potential sales and use tax increase, which of the following statements best describe your opinion? Please select only one.	Percent of respondents	Number of respondents
I’d rather pay a 1 cent (\$0.01) sales and use tax increase to complete more of the needed improvements sooner	42%	N=293
A three-quarters of a cent (\$0.0075) sales and use tax increase sounds like the right amount to me	31%	N=214
I’d rather pay one-half of a cent (\$0.005) sales and use tax increase and complete fewer of the needed improvements over a longer period of time	8%	N=53
I do not want a sales and use tax increase	19%	N=133
Total	100%	N=693

Appendix B: Verbatim Responses to Open-ended Survey Questions

All write-in responses are presented below verbatim, meaning spelling and grammar has not been corrected. Comments are sorted alphabetically.

Question 2. What are your reasons for living in Littleton? (Please select all that apply.) ("Other" responses.)

- Beautiful homes.
- Church.
- Close to grand school.
- Close to lightrail.
- Consistency.
- Downtown & the river trail.
- Downtown Littleton is getting better.
- Historic areas
- Historic "old town" feel & comfort, Christmas lights downtown etc charm.
- I was tricked.
- It reminds me of the town I grew up in, in IL.
- It's a real city not just a suburb.
- Kids went to school here, have lived here a long time.
- Littleton is small & charming.
- Live in home owned by family.
- Love historic downtown old trees, garden.
- Moved from Raw.
- Moved here from Denver 1978.
- My house.
- My husband lived here when we got married.
- Near church.
- Near Denver seminary.
- Old town.
- Our church is close by.
- Our church is walking distance from our house
- Over valued real estate.
- Own home.
- Pitbull friendly.
- Retirement community.
- Small town feel love downtown.
- Small town feeling.
- Small town feeling.
- The weather.
- This is not a college town.
- Very unique place.
- Views are phenomenal commute to any part of town is easy.

- We can't afford to move.

Question 4. Please identify up to three issues you believe are the most pressing issues facing Littleton in the next two years.

("Other" responses).

- Activities for young (under 5) children.
- Aging home and infrastructure
- All good.
- Belleview and Federal development.
- Buildings getting taller.
- City gov't image!
- City planning is horrible. City council doesn't care.
- Complete streets- walkability.
- Control alley trash & rental properties for care.
- Developers running row point.
- Diversity. Also, I think snow clearing around schools could be improved.
- Encourage RTO to keep D line running late.
- Environmental sustainability & efforts to rejuvenate the green spaces- more trees, plants, & shrubs etc.
- Geese.
- Geese.
- Getting rid of marijuana and making it less crowded.
- Helping locally owned small business afford space is downtown.
- Homeless people.
- Homeless persons.
- Homeless population.
- Homelessness.
- Illegal aliens.
- Illegal immigration.
- Infrasatructure: Internet
- Lack of planning, permitting developer pay offs.
- Large building over shadowing downtown Littleton.
- Libraries and Schools.
- Litter along Broadway & Mineral.
- More tax.
- Need stop sign at both ways on Windener and Suppeiel.
- No recycling center.
- Noise pollution.
- None of the above.
- Older residence unwilling to embrace change.
- Planning dept does not have citizens interest as the top priority.
- Poverty.
- Preserve the historical buildings in Littleton before they are replaced with apts, parking & developments that are out of character & size

- Public transit - more, more. Maximize walkability & interconnectedness between living & business spaces.
- Public transportation.
- Recycling.
- Regulation of rent for management CO's greedy.
- Safety on Highline Canal Trail & Downtown RTD/ train stop.
- safety in the parks
- Schools & funding for them.
- Schools decreasing numbers in some areas & increasing in other.
- Schools.
- Section 8 housing has no place in Littleton. Especially in old downtown!!
- See back of last page. [luxury apt complex on Bemis and Littleton]
- Senior services WiFi reception on my street. I am in a close to dead zone with Verizon.
- Sidewalks so people can walk to downtown. We have no way to get there because the sidewalk on Bowles W of Lowell is too small and dangerous. There's no where to walk in our neighborhood without walking on the street.
- Smart growth.
- Snow/ice on main streets.
- Taxes.
- Too many chains, shrinking local business (view house and tavern changing feel of downtown).
- Too many signs.
- Turning into a bedroom community with several apt bldgs being built
- Unwillingness & aid homeless population.
- We need to keep rec. marijuana out of Littleton.

Question 25. Other topics you would like to receive information about:

- A complete breakdown of the city of Littletons finances. What the city takes in and how the money is spent and current balances on any general fund balances to get a true indication of Littletons finances!
- A complete explanation why my water bill has risen so dramatically over the last two years
- Allowing building structures that do not confirm to surrounding ambiance e.g. the multi storied apartment is adjacent to the light rail tracks and Littleton Blvd. Tear it down and restore the open space. The city council should have nipped that deal in the bud.
- Alternative transportation planning.
- Any rezoning should require written notice to all citizens prior to a council vote.
- City planning and what the city is doing to create sustainable walkable communities/ neighborhoods walkable to transit, groceries, etc.
- Code enforcement officers need training on what their job is and to understand that they are a public servant not a god!
- Consider homeless, providing temporary housing w/ life/ living education. For two years and two (2) years only. Consider insisting potential council members have some code enforcement education.

- Crime on older Americans! Question: why are older Americans being assaulted and civil rights being violated in Littleton CO? Littleton CO has crime against older Americans like Amity plaza- lots of crime Lara Lea apts.
- Current & future construction projects (road construction specifically).
- Efforts to force us to build more section 8 housing.
- Efforts to help the homeless; welcoming of immigrants; encouraging diversity.
- Environmental sustainability plans, direction & efforts (watering drip systems, energy efficiencies etc). Promoting good environmental "green growth" project (more trees plants etc) (ones which are good for the environment & water).
- Everything important.
- For a way to make marijuana illegal and reduce the amount of people living in Littleton.
- Future tax increases.
- Give the recent fire in Denver at Emerson & 18th, please wait for the final evaluation & then possibly consider changing construction codes, setbacks, other!!!
- Have to improve senior independent got. living in Littleton for mid-income seniors.
- How Littleton is performing vs goals.
- How people representing my district voted on items[?].
- How to cut the noise from Hudson gardens-summer concerts
- how to fix the congestion on Mineral in the afternoon. It is a mess and people who don't live here speed through South Park, which should be a "not a thru street" Also, we need a kids sporting complex like Parker, CO has!
- Improvements to parking.
- Is city council truly made of elected officials by the public, and are they making decisions based on their constituents? If Littleton voters indicated that they would like recreation marijuana legalized, then why does city council decide whether the votes get to access what they voted for or not?
- Large project zoning & parameters.
- Listen to community, apart about building more multi family units i.e. apartments, infrastructure in a real when streets will not handle traffic flow.
- Littleton history- peaks of the past.
- Littleton internet progress
- More \$ to schools.
- New & current businesses.
- New developments/ redevelopment open space/ trails loss of historic building over-development with ugly new stuff.
- Note: didn't know some of the websites below existed-good to know!
- Open space, trails, parks.
- Outraged by the Grove complex. My neighbors feel the same way!!!
- Parking downtown and parking allocation for housing projects (1.1 parking places per unit is a total joke, just drive around and see)
- Parks and open space, controlling development, leaving more natural surroundings
- Plans for affordable housing and homeless prevention among working class.
- Plans for affordable housing in area.
- Post office is not maintained.
- Preserving downtown Littleton- the historic aspect of buildings.

- Public transportation and bike trails - connecting Littleton to downtown and other parts of the metro area and vice versa
- Redevelopment of shopping centers, including ideas and plans.
- Reduction of illegal aliens and what's being done about it.
- Removing ugly McDonald signs from corners- waste of \$.
- Rent control, recycling centers.
- School.
- Seems city spending money on useless road projects.
- Staffing changes.
- Street closures and detours, traffic alerts for accidents, malfunctioning traffic lights, etc.
- The new apartment being built / don't have complete approval. Rumor is they did not?
- The new housing project just east of downtown has dramatically changed the "small town" feel of the downtown area. From my inquiries, the decision making was not transparent and did not consider the impact to the historic neighborhood on it's border including traffic or impact to homeowners. Very disappointing considering the impact to the city as a whole. If building oversized "cardboard condos" in the downtown Littleton area is going to be the norm, please name the projects after the city council membersthat voted for it so in a couple of year, when they show their age, the citizen will know who to thank.
- Traffic Circles Prentice and Heron
- Traffic on Mineral East to Santa Fe is so congested during morning. Rush hour- sometimes backed up to Platte Canyon! Can this strip expanded at least going East w/ another lane of horrible!
- Traffic on Windermere St its getting as bad as Santa Fe.
- Very little information about local government officials.
- Violent crimes that happen in my neighborhood; resources and opportunities for residents, like the HazMat recycling program and volunteer chances
- Volunteer opportunities
- Was public informed about Bemis & Littleton Ave apt complex. I never heard anything! However, it was done was egregious. The rent is very high.
- Ways to help new immigrant populations
- What is being done about congestion (traffic) at Mineral & Santa Fe west bound?
- What's being done about illegal aliens beside cuddling them & using them to line the pocket of churches, charities & organizations and for their votes.
- What's being done about parking and lack of cell service.
- When neighborhood streets are planned to be re-paved
- Would like city to consider offering composite services (for a fee).
- Would like to know ahead of time when City is going to make major changes in my neighborhood, such as development, road changes etc. so that we can comment.

Appendix C: Comparisons of Select Survey Results by Respondent Subgroups

For ease of comparison between subgroups, for most of the questions the summarized responses show only the proportion of respondents giving a positive answer; for example, the percent of respondents who strongly or somewhat supported a sales and use tax or percent of respondents who rated an item as excellent or good.

The subgroup comparison tables contain the cross tabulations of survey questions by selected respondent characteristics. Chi-square or ANOVA tests of significance were applied to these breakdowns of survey questions. A “p-value” of 0.05 or less indicates that there is less than a 5% probability that differences observed between groups are due to chance; or in other words, a greater than 95% probability that the differences observed in the selected categories of the sample represent “real” differences among those populations.

For each pair of subgroups that has a statistically significant difference, an upper case letter denoting significance is shown in the category with the larger column proportion. The letter denotes the category with the smaller column proportion from which it is statistically different. Differences were marked as statistically significant if the probability that the differences were due to chance alone were less than 5%. Categories were not used in comparisons when a column proportion was equal to zero or one.

Items that have no upper case letter denotation in their column and that are also not referred to in any other column were not statistically different.

For example, in Table 64 on page 77, 95% of respondents who had lived in Littleton for more than 10 years (B) rated the city as a place to raise children as excellent or good. This proportion of respondents (B) was statistically significantly higher than those who had lived in Littleton for 10 years or less (A). In another example, in Table 66 on page 78, those who had lived in Littleton for 10 years or less (A) rated the amount of Downtown parking in Littleton significantly higher than who had lived in Littleton for more than 10 years (B).

Select Questions Compared by Length of Residency

- Where ratings were statistically different between longer- and shorter-term residents, those living in the city for more than 10 years gave higher evaluations to various aspects of quality of life and city services. Longer-tenured residents also placed higher priority on most potential areas of focus for the Littleton Police Department.
- Residents who had lived in Littleton for 10 years or less gave higher evaluations than those who lived there longer for some aspects of the city government's performance, including responding to citizen complaints and concerns, running the government in the best interest of residents and the overall direction the city is taking.

Table 64: Question 1 Compared by Respondent Subgroups

Please rate each of the following aspects of quality of life in Littleton. (Percent excellent or good)	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
Littleton as a place to live	96%	96%	96%
Your neighborhood as a place to live	88%	89%	89%
Littleton as a place to raise children	89%	95% A	92%
Littleton as a place to retire	73%	74%	74%
Littleton as a place to work	73%	81% A	78%
Overall quality of life in Littleton	94%	93%	93%

Table 65: Question 7 Compared by Respondent Subgroups

(Percent essential or very important)	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
How important is it for Littleton to promote itself as a location for business, shopping, recreation and entertainment?	74%	69%	71%

Table 66: Question 8 Compared by Respondent Subgroups

Please rate the quality of each of the following in Littleton. (Percent excellent or good)	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
Appearance of city	87%	87%	88%
Shopping opportunities	68%	66%	67%

Buck Recreation Center	88%	90%	89%
City-sponsored special events	79%	87% A	83%
Town Hall Arts Center	76%	88% A	84%
Leaf and tire recycling	71%	75%	74%
Household Haz Mat Roundup	57%	75% A	70%
City management	62%	61%	61%

Table 67: Question 9 Compared by Respondent Subgroups

Please rate the following areas of transportation in Littleton. (Percent excellent or good)	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
Ease of driving	70%	70%	70%
Ease of traveling by bus (RTD)	51%	63% A	58%
Ease of traveling by light rail	81%	84%	82%
Ease of walking in the city	76%	81%	79%
Ease of traveling by bicycle	77%	79%	78%
Traffic congestion	30%	26%	28%
Street maintenance	53% B	42%	47%
Omnibus/Shopping Cart senior and disabled van service	82%	81%	81%
Downtown Littleton light rail station	89%	86%	87%
Mineral Avenue light rail station	83%	84%	84%

Table 68: Question 14 Compared by Respondent Subgroups

Please rate the job the Littleton Police Department does at each of the following in Littleton. (Percent excellent or good)	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
Crime prevention	82%	80%	81%
Crime solving	64%	67%	66%
Maintaining public order	89%	86%	87%
Providing public information and education	68%	76%	73%
Protecting individual civil rights	68%	77%	74%
Assisting fire responders with disasters	90%	90%	90%

Table 69: Question 15 Compared by Respondent Subgroups

Please rate the Littleton Police Department on the following. (Percent excellent or good)	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
Being trustworthy	85%	86%	85%
Acting in the best interest of the community	83%	85%	84%
Treating all residents fairly	78%	80%	79%
Being sensitive to residents' concerns	80%	81%	80%
Responding to citizens' emergency calls for service	88%	89%	88%
Caring about the well-being of the people they deal with	79%	82%	81%
Working with people in your neighborhood to solve neighborhood problems	71%	75%	73%
Communicating regularly with community members (e.g., websites, emails or public meetings)	65%	66%	66%
Inviting community members to provide input (e.g., comments, suggestions and concerns)	59%	63%	62%

Table 70: Question 16 Compared by Respondent Subgroups

Overall, how would you rate the quality of services provided by the City of Littleton? (Percent excellent or good)	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
Overall, how would you rate the quality of municipal services provided by the City of Littleton?	80%	81%	81%

Table 71: Question 17 Compared by Respondent Subgroups

Please rate the following categories of Littleton government performance. (Percent excellent or good)	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
The direction the city is taking with respect to open space, trails and parks	86% B	79%	82%
Attracting companies to locate in Littleton	50%	56%	54%
The job the city government does at welcoming citizen involvement	65%	58%	60%
Opportunities to participate in city government decisions	53%	52%	52%
Responding to citizen complaints and concerns	58% B	42%	48%
Holding public meetings about city plans	56%	61%	59%
Littleton's elected officials' consideration of what people like me think	50%	45%	47%
Littleton's government as an example of how best to provide services	46%	48%	47%
The city manager's management of city operations	53%	59%	57%
The quality of work provided by City of Littleton employees	69%	69%	69%
Spending local tax dollars wisely	54%	48%	51%
The value of services for the property taxes paid to Littleton	52%	55%	54%
A city government that is run efficiently	56%	54%	55%
Running Littleton's local government in the best interest of residents	62% B	50%	55%
Being transparent and accountable to the public	51%	44%	47%
Providing information about city plans and programs	59%	51%	54%
The overall direction the city is taking	68% B	56%	61%

Table 72: Question 18 Compared by Respondent Subgroups

(Percent "to a great extent" or "to a moderate extent")	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
To what extent do you trust that the decisions made by city council represent the best interest of citizens?	73%	66%	69%

Table 73: Question 20 Compared by Respondent Subgroups

Thinking about the next five to eight years, how important is each of the following potential projects in Littleton? (Percent essential or very important)	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
Reducing traffic congestion on city streets	70%	80% A	75%
Maintaining and improving city infrastructure (e.g., streets, sidewalks, buildings, etc.)	75%	79%	77%
Building new trails	48%	46%	47%
Continuing preservation programs for historic buildings	52%	57%	55%
Partnering strategically and financially with the private sector in development	54%	57%	56%
Redeveloping older neighborhoods	57%	52%	55%
Redeveloping aging shopping centers	67%	72%	70%
Expanding programs for youth	65%	59%	62%
Expanding programs for seniors	56%	54%	55%
Expanding programs for immigrants	39%	37%	38%

Table 74: Question 21 Compared by Respondent Subgroups

Please indicate how much of a priority, if at all, you think it is for the City of Littleton Police Department to focus resources on each of the following areas in the next two years. (Percent high or medium priority)	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
Traffic issues/residential speeding	73%	80% A	76%
Vandalism/graffiti	58%	77% A	68%
Fraud/identity theft	78%	86% A	82%
School safety (bullying, fighting, weapons)	95%	93%	94%
Homeless/transient-related issues	75%	83% A	79%
Gang activity	74%	82% A	79%
Violent crimes	91%	93%	92%
Property crimes	89%	92%	91%
Hate crimes	86%	86%	85%
Disorderly conduct/public intoxications/noise violations	59%	71% A	65%
Disorderly youth/underage drinking	58%	77% A	68%
Drug abuse (manufacture, sale, or use of illegal/prescription drugs)	79%	90% A	85%

Table 75: Question 22 Compared by Respondent Subgroups

(Percent strongly or somewhat support)	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
The city currently has a budget shortfall to fund all the needed improvements to aging infrastructure, such as maintaining streets to an adequate level, maintaining and adding sidewalks and maintaining existing buildings. If the city asked voters to pass a sales and use tax increase of three-quarters of a cent (\$0.0075) on every \$1 which would sunset (expire) in 15 years, to what extent would you support or oppose this increase?	84%	81%	82%

Table 76: Question 24 Compared by Respondent Subgroups

(Percent strongly or somewhat support)	Length of residency		Overall
	10 years or less	More than 10 years	
	(A)	(B)	
To what extent would you support or oppose a lodging tax that hotel room visitors would pay with the money to be used for tourism, marketing and promotion of Littleton?	69%	71%	70%

Select Questions Compared by Tenure (Rent vs Own)

- Homeowners tended to give statistically significantly higher evaluations to aspects of quality of life and community relations with the Littleton Police Department.
- Renters were more likely to think it was important for the city to promote itself, give higher quality ratings to various aspects of transportation and feel the overall direction the city is taking was excellent or good.

Table 77: Question 1 Compared by Respondent Subgroups

Please rate each of the following aspects of quality of life in Littleton. (Percent excellent or good)	Rent or own home		Overall
	Rent	Own	
	(A)	(B)	
Littleton as a place to live	94%	97% A	96%
Your neighborhood as a place to live	80%	94% A	89%

Drug abuse (manufacture, sale, or use of illegal/prescription drugs)	74%	86% A	91% A	85%

Table 101: Question 22 Compared by Respondent Subgroups

(Percent strongly or somewhat support)	Age			Overall
	18-34	35-54	55+	
	(A)	(B)	(C)	
The city currently has a budget shortfall to fund all the needed improvements to aging infrastructure, such as maintaining streets to an adequate level, maintaining and adding sidewalks and maintaining existing buildings. If the city asked voters to pass a sales and use tax increase of three-quarters of a cent (\$0.0075) on every \$1 which would sunset (expire) in 15 years, to what extent would you support or oppose this increase?	84%	82%	83%	82%

Table 102: Question 24 Compared by Respondent Subgroups

(Percent strongly or somewhat support)	Age			Overall
	18-34	35-54	55+	
	(A)	(B)	(C)	
To what extent would you support or oppose a lodging tax that hotel room visitors would pay with the money to be used for tourism, marketing and promotion of Littleton?	56%	79% A	70% A	70%

Select Questions Compared by Household Income

- Households with higher annual income levels (more than \$25,000) gave higher marks to many aspects of quality of life, several city services and some aspects of community relations with the Police Department.
- Those with annual household incomes of \$25,000 to \$99,999 gave higher ratings to many more aspects of transportation than those with higher or lower income levels.

Table 103: Question 1 Compared by Respondent Subgroups

Please rate each of the following aspects of quality of life in Littleton. (Percent excellent or good)	Household income			Overall
	Less than \$25,000	\$25,000 to \$99,999	\$100,000 or more

Omnibus/Shopping Cart senior and disabled van service	81%	86%	81%
Downtown Littleton light rail station	89% B	82%	87%
Mineral Avenue light rail station	84%	84%	84%

Table 120: Question 14 Compared by Respondent Subgroups

Please rate the job the Littleton Police Department does at each of the following in Littleton. (Percent excellent or good)	Race/ethnicity		Overall
	White alone, not Hispanic	Hispanic and/or other race	
	(A)	(B)	
Crime prevention	80%	79%	81%
Crime solving	68%	58%	66%
Maintaining public order	87%	85%	87%
Providing public information and education	77% B	54%	73%
Protecting individual civil rights	75%	64%	74%
Assisting fire responders with disasters	93% B	76%	90%

Table 121: Question 15 Compared by Respondent Subgroups

Please rate the Littleton Police Department on the following. (Percent excellent or good)	Race/ethnicity		Overall
	White alone, not Hispanic	Hispanic and/or other race	
	(A)	(B)	
Being trustworthy	87% B	77%	85%
Acting in the best interest of the community	86% B	72%	84%
Treating all residents fairly	83% B	64%	79%
Being sensitive to residents' concerns	83% B	69%	80%
Responding to citizens' emergency calls for service	90% B	81%	88%
Caring about the well-being of the people they deal with	84% B	69%	81%
Working with people in your neighborhood to solve neighborhood problems	75%	63%	73%
Communicating regularly with community members (e.g., websites, emails or public meetings)	69% B	54%	66%
Inviting community members to provide input (e.g., comments, suggestions and concerns)	65% B	50%	62%

Table 122: Question 16 Compared by Respondent Subgroups

Overall, how would you rate the quality of services provided by the City of Littleton? (Percent excellent or good)	Race/ethnicity		Overall
	White alone, not Hispanic	Hispanic and/or other race	
	(A)	(B)	
Overall, how would you rate the quality of municipal services provided by the City of Littleton?	84% B	68%	81%

Table 123: Question 17 Compared by Respondent Subgroups

Please rate the following categories of Littleton government performance. (Percent excellent or good)	Race/ethnicity		Overall
	White alone, not Hispanic	Hispanic and/or other race	
	(A)	(B)	
The direction the city is taking with respect to open space, trails and parks	84% B	73%	82%
Attracting companies to locate in Littleton	57% B	41%	54%
The job the city government does at welcoming citizen involvement	61%	62%	60%
Opportunities to participate in city government decisions	53%	48%	52%
Responding to citizen complaints and concerns	50%	40%	48%
Holding public meetings about city plans	60%	58%	59%
Littleton's elected officials' consideration of what people like me think	48%	41%	47%
Littleton's government as an example of how best to provide services	48%	46%	47%
The city manager's management of city operations	57%	59%	57%
The quality of work provided by City of Littleton employees	71%	63%	69%
Spending local tax dollars wisely	53%	42%	51%
The value of services for the property taxes paid to Littleton	57% B	44%	54%
A city government that is run efficiently	59% B	41%	55%
Running Littleton's local government in the best interest of residents	57%	47%	55%
Being transparent and accountable to the public	51% B	34%	47%
Providing information about city plans and programs	58% B	41%	54%
The overall direction the city is taking	63%	56%	61%

Table 124: Question 18 Compared by Respondent Subgroups

(Percent "to a great extent" or "to a moderate extent")	Race/ethnicity		Overall
	White alone, not Hispanic	Hispanic and/or other race	
	(A)	(B)	
To what extent do you trust that the decisions made by city council represent the best interest of citizens?	71%	63%	69%

Table 125: Question 20 Compared by Respondent Subgroups

Thinking about the next five to eight years, how important is each of the following potential projects in Littleton? (Percent essential or very important)	Race/ethnicity		Overall
	White alone, not Hispanic	Hispanic and/or other race	
	(A)	(B)	
Reducing traffic congestion on city streets	74%	78%	75%
Maintaining and improving city infrastructure (e.g., streets, sidewalks, buildings, etc.)	78%	72%	77%
Building new trails	48%	47%	47%
Continuing preservation programs for historic buildings	55%	50%	55%
Partnering strategically and financially with the private sector in development	54%	59%	56%
Redeveloping older neighborhoods	54%	58%	55%
Redeveloping aging shopping centers	69%	75%	70%
Expanding programs for youth	62%	64%	62%
Expanding programs for seniors	57%	48%	55%
Expanding programs for immigrants	36%	49% A	38%

Table 126: Question 21 Compared by Respondent Subgroups

Please indicate how much of a priority, if at all, you think it is for the City of Littleton Police Department to focus resources on each of the following areas in the next two years. (Percent high or medium priority)	Race/ethnicity		Overall
	White alone, not Hispanic	Hispanic and/or other race	
	(A)	(B)	
Traffic issues/residential speeding	73%	86% A	76%
Vandalism/graffiti	69%	60%	68%
Fraud/identity theft	82%	80%	82%
School safety (bullying, fighting, weapons)	96% B	86%	94%
Homeless/transient-related issues	78%	81%	79%
Gang activity	78%	76%	79%

Disorderly conduct/public intoxications/noise violations	65%	64%	65%
Disorderly youth/underage drinking	68%	66%	68%
Drug abuse (manufacture, sale, or use of illegal/prescription drugs)	85%	80%	85%

Table 127: Question 22 Compared by Respondent Subgroups

(Percent strongly or somewhat support)	Race/ethnicity		Overall
	White alone, not Hispanic	Hispanic and/or other race	
	(A)	(B)	
The city currently has a budget shortfall to fund all the needed improvements to aging infrastructure, such as maintaining streets to an adequate level, maintaining and adding sidewalks and maintaining existing buildings. If the city asked voters to pass a sales and use tax increase of three-quarters of a cent (\$0.0075) on every \$1 which would sunset (expire) in 15 years, to what extent would you support or oppose this increase?	86% B	73%	82%

Table 128: Question 24 Compared by Respondent Subgroups

(Percent strongly or somewhat support)	Race/ethnicity		Overall
	White alone, not Hispanic	Hispanic and/or other race	
	(A)	(B)	
To what extent would you support or oppose a lodging tax that hotel room visitors would pay with the money to be used for tourism, marketing and promotion of Littleton?	70%	69%	70%

Select Questions Compared by Council District

- Residents living in District 2 tended to give lower assessments to aspects of quality of life than those living in other Districts.
- Residents in District 3 were more critical of some aspects of transportation, including ease of travel by bus and light rail, than were those living in other areas of the city. These residents also gave less favorable ratings to aspects of the city government performance, where differences were observed.
- Compared to those in District 3, more District 1 and 4 residents wanted property crimes to be a priority area for the Littleton Police Department to address in coming years.

Table 129: Question 1 Compared by Respondent Subgroups

Please rate each of the following aspects of quality of life in Littleton. (Percent excellent or good)	Council District				Overall

Appendix D: Detailed Benchmark Comparisons

Comparing Littleton's Results to the Benchmarking Database

Jurisdictions use the comparative information provided by benchmarks to help interpret their own citizen survey results, to create or revise community plans, to evaluate the success of policy or budget decisions and to measure local government performance. Taking the pulse of the community has little meaning without knowing what pulse rate is too high and what is too low. When surveys of service satisfaction turn up “good” citizen evaluations, it is necessary to know how others rate their services to understand if “good” is good enough or if most other communities are “excellent.” Furthermore, in the absence of national or peer community comparisons, a jurisdiction is left with comparing its police protection rating to its street maintenance rating. That comparison is unfair as street maintenance always gets lower ratings than police protection. More illuminating is how residents’ ratings of police service compare to opinions about police service in other communities and to resident ratings over time.

A police department that provides the fastest and most efficient service – one that closes most of its cases, solves most of its crimes, and keeps the crime rate low – still has a problem to fix if the residents in the city rate police services lower than ratings given by residents in other cities with objectively “worse” departments. Benchmark data can help that police department – or any city department – to understand how well citizens think it is doing.

NRC has innovated a method for quantitatively integrating the results of surveys that we have conducted with those that others have conducted. These integration methods have been described thoroughly in *Public Administration Review*, *Journal of Policy Analysis and Management*, and in NRC’s first book on conducting and using citizen surveys, *Citizen Surveys: how to do them, how to use them, what they mean*, published by the International City/County Management Association (ICMA). Scholars who specialize in the analysis of citizen surveys regularly have relied on NRC’s work¹. The method described in those publications is refined regularly and statistically tested on a growing number of citizen surveys in NRC’s proprietary databases.

Jurisdictions in NRC’s benchmark database are distributed geographically across the country and range from small to large in population size. Comparisons may be made to all jurisdictions in the database or to a subset of jurisdictions (within a given region or population category such as Front Range jurisdictions), as in this report. Despite the differences in jurisdiction characteristics, all are in the business of providing local government services to residents. Though individual jurisdiction circumstances, resources, and practices vary, the objective in every community is to provide services that are so timely, tailored, and effective that residents conclude the services are of the highest

¹ Kelly, J. & Swindell, D. (2002). Service quality variation across urban space: First steps towards a model of citizen satisfaction, *Journal of Urban Affairs*, 24, 271-288.

Van Ryzin, G., Muzzio, D., Immerwahr, S., Gulick, L. & Martinez, E. (2004). Drivers and consequences of citizen satisfaction: An application of the American Customer Satisfaction Index Model to New York City, *Public Administration Review*, 64, 331-341.

quality. High ratings in any jurisdiction, like SAT scores in any teen household, bring pride and a sense of accomplishment.

While benchmarks help set the basis for evaluation, citizen opinion should be used in conjunction with other sources of data about budget, population demographics, personnel, and politics to help managers know how to respond to comparative results.

Interpreting the Results

Ratings are compared when similar questions are included in NRC's database, and there are at least five communities in which the question was asked. Where comparisons are available, three numbers are provided in the table. The first column is Littleton's "percent positive" rating (e.g., "excellent" or "good," "strongly agree" or "somewhat agree," "very safe" or "somewhat safe"). The second column is the rank assigned to Littleton's rating among communities where a similar question was asked. The third column is the number of communities that asked a similar question. The fourth column shows the comparison of Littleton's rating to the benchmark.

Where comparisons for quality ratings were available, the City of Littleton's results were generally noted as being "higher" than the benchmark, "lower" than the benchmark or "similar" to the benchmark. In instances where ratings are considerably higher or lower than the benchmark, these ratings have been further demarcated by the attribute of "much," (for example, "much lower" or "much higher"). These labels come from a statistical comparison of Littleton's rating to the benchmark where a rating is considered "similar" if it is within the margin of error; "higher" or "lower" if the difference between Littleton's rating and the benchmark is greater than, but less than twice, the margin of error; and "much higher" or "much lower" if the difference between Littleton's rating and the benchmark is more than twice the margin of error.

National Benchmark Comparisons

Table 142: Aspects of Quality of Life

Please rate each of the following aspects of quality of life in Littleton.	Percent positive	Rank	Number of communities in comparison	Comparison to national benchmark
Littleton as a place to live	96%	81	404	Much higher
Your neighborhood as a place to live	89%	95	320	Higher
Littleton as a place to raise children	92%	96	394	Much higher

• Erie town, CO	18,135	• Windsor town, CO	18,644
• Fort Collins city, CO	143,986		

Appendix E: Survey Methodology

The City of Littleton 2018 Resident Survey was developed to provide an accurate assessment and interpretation of resident opinion about important community issues. Results offer insight into residents' perspectives about the quality of life in the community and local government performance, and are intended to help city leaders with strategic planning and communication with residents. The City of Littleton funded this research. Please contact Kelli Narde at the City of Littleton at (303) 734-8400 if you have any questions about the survey.

Survey Validity

The question of survey validity has two parts: 1) how can a jurisdiction be confident that the results from those who completed the questionnaire are representative of the results that would have been obtained had the survey been administered to the entire population? and 2) how closely do the perspectives recorded on the survey reflect what residents really believe or do?

To answer the first question, the best survey research practices were used for the resources spent to ensure that the results from the survey respondents reflect the opinions of residents in the entire jurisdiction. These practices include:

- Using a mail-out/mail-back methodology, which typically gets a higher response rate than phone for the same dollars spent. A higher response rate lessens the worry that those who did not respond are different than those who did respond.
- Selecting households at random within the jurisdiction to receive the survey. A random selection ensures that the households selected to receive the survey are similar to the entire population. A non-random sample may only include households from one geographic area, or from households of only one type.
- Selecting the respondent within the household using an unbiased sampling procedure; in this case, the "birthday method." The cover letter included an instruction requesting that the respondent in the household be the adult (18 years old or older) who most recently had a birthday, irrespective of year of birth.
- Contacting potential respondents three times to encourage response from people who may have different opinions or habits than those who would respond with only a single prompt.
- Soliciting response on jurisdiction letterhead signed by the highest ranking elected official or staff member, thus appealing to the recipients' sense of civic responsibility.
- Providing a self-addressed, postage-paid return envelope.
- Using the most recent available information about the characteristics of jurisdiction residents to weight the data to reflect the demographics of the population.

The answer to the second question about how closely the perspectives recorded on the survey reflect what residents really believe or do is more complex. Resident responses to surveys are influenced by a variety of factors. For questions about service quality, residents' expectations for service quality play a role as well as the "objective" quality of the service provided, the way the resident perceives the entire community (that is, the context in which the service is provided), the scale on which the resident is asked to record his or her opinion and, of course, the opinion, itself, that a resident holds about the service. Similarly a resident's report of certain behaviors is colored by what he or she

believes is the socially desirable response (e.g., reporting tolerant behaviors toward “oppressed groups,” likelihood of voting a tax increase for services to poor people, use of alternative modes of travel to work besides the single occupancy vehicle), his or her memory of the actual behavior (if it is not a question speculating about future actions, like a vote), his or her confidence that he or she can be honest without suffering any negative consequences (thus the need for anonymity) as well as the actual behavior itself.

How close survey results come to recording the way a person really feels or behaves often is measured by the coincidence of reported behavior with observed current behavior (e.g., driving habits), reported intentions to behave with observed future behavior (e.g., voting choices) or reported opinions about current community quality with objective characteristics of the community (e.g., feelings of safety correlated with rates of crime). There is a body of scientific literature that has investigated the relationship between reported behaviors and actual behaviors. Well-conducted surveys, by and large, do capture true respondent behaviors or intentions to act with great accuracy. Predictions of voting outcomes tend to be quite accurate using survey research, as are predictions of reported behaviors that are not about highly sensitive issues (e.g., family abuse or other illegal or morally sanctioned activities). For self-reports about highly sensitive issues, statistical adjustments can be made to correct for the respondents’ tendency to report what they think the “correct” response should be.

Research on the correlation of resident opinion about service quality and “objective” ratings of service quality tend to be ambiguous, some showing stronger relationships than others. NRC’s own research has demonstrated that residents who report the lowest ratings of street repair live in communities with objectively worse street conditions than those who report high ratings of street repair (based on road quality, delay in street repair, number of road repair employees). Similarly, the lowest rated fire services appear to be “objectively” worse than the highest rated fire services (expenditures per capita, response time, “professional” status of firefighters, breadth of services and training provided). Whether or not some research confirms the relationship between what residents think about a community and what can be seen “objectively” in a community, NRC has argued that resident opinion is a perspective that cannot be ignored by government administrators. NRC principals have written, “If you collect trash three times a day but residents think that your trash haul is lousy, you still have a problem.”

Developing the Questionnaire

General resident surveys, such as this one, ask recipients for their perspectives on policy issues facing the city and their assessment of city service delivery, the quality of life in the city and their use of city amenities. The 2018 survey instrument for Littleton was developed through an iterative process that started with 2016 resident survey. Some questions were eliminated and approximately one page of new questions was created. All questions were prioritized and an optimal composition of topics and questions were selected. Through this iterative process between city staff and NRC staff, a final six-page questionnaire was created.

Selecting Survey Recipients

“Sampling” refers to the method by which survey recipients are chosen. The “sample” refers to all those who were given a chance to participate in the survey. All households located in the city boundaries were eligible for the survey. Because local governments generally do not have inclusive

lists of all the residences in the jurisdiction (tax assessor and utility billing databases often omit rental units), lists from the United States Postal Service (USPS), updated every three months, usually provide the best representation of all households in a specific geographic location. A list of all households within the zip codes serving Littleton was purchased from Go-Dog Direct based on updated listings from the USPS.

A larger list than needed was selected so that a process referred to as “geocoding” could be used to eliminate addresses from the list that were outside the city’s boundaries. Geocoding is a computerized process in which addresses are compared to electronically mapped boundaries and coded as inside or outside desired boundaries; in this case, within the City of Littleton. All addresses determined to be outside the study boundaries were eliminated from the list. To permit comparisons of the survey results by geographic area of residence, the city council district also was identified for each selected household. A random selection was made of the remaining addresses to create a mailing list of 3,000 addresses. Attached units were oversampled to compensate for detached unit residents’ tendency to return surveys at a higher rate.

An individual within each household was randomly selected to complete the survey using the birthday method. The birthday method selects a person within the household by asking the “person whose birthday has most recently passed” to complete the questionnaire. The underlying assumption in this method is that day of birth has no relationship to the way people respond to surveys. This instruction was contained in the cover letter accompanying the questionnaire.

Mail Survey Administration and Response

Each selected household was contacted three times. Households were first mailed a pre-notification announcement, informing the household members that they had been selected to participate in the Littleton survey. Approximately one week after mailing the pre-notification, each household was mailed a survey containing a cover letter signed by the Mayor enlisting participation. A postage-paid return envelope in which the survey recipients could return the completed questionnaire to NRC was provided. A second survey packet, scheduled to arrive one week after the first survey, was the final contact. This second mailing packet asked those who had not completed the survey to do so and those who had already done so to refrain from turning in another survey. Additionally, the cover letters included a URL to an online version of the survey where respondents could complete it, if they preferred.

The mailings were sent beginning February 23, 2018 and completed surveys were collected over six weeks. About 4% of the 3,000 surveys mailed were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. Of the remaining 2,887 households, 721 completed the survey (including 110 via the web), providing an overall response rate of 25%. Additionally, response rates for each Council District and ranged from 16% to 35%. The response rates were calculated using AAPOR’s response rate #2² for mailed surveys of unnamed persons. The response rates appear in the table on the following page.

² See AAPOR’s Standard Definitions here: [http://www.aapor.org/Standards-Ethics/Standard-Definitions-\(1\).aspx](http://www.aapor.org/Standards-Ethics/Standard-Definitions-(1).aspx) for more information

Table 156: Survey Response Rates by Council District

	District 1	District 2	District 3	District 4	Overall
Total sample used	822	764	629	785	3,000
I=Complete Interviews	178	113	209	202	702
P=Partial Interviews	4	2	7	6	19
R=Refusal and break off	0	1	0	0	1
NC=Non Contact	0	0	0	0	0
O=Other	0	0	0	0	0
UH=Unknown household	0	0	0	0	0
UO=Unknown other	618	582	400	555	2,155
Response rate: $(I+P)/(I+P) + (R+NC+O) + (UH+UO)$	23%	16%	35%	27%	25%

Confidence Interval and Margin of Error

It is customary to describe the precision of estimates made from surveys by a “level of confidence” and accompanying “confidence interval” (or margin of error). A traditional level of confidence, and the one used for this report, is 95%. The 95% confidence interval quantifies the sampling error or imprecision of the survey results because some residents’ opinions are relied on to estimate all residents’ opinions. The margin of error for the City of Littleton 2018 Resident Survey is no greater than plus or minus four percentage points around any given percent reported for all respondents (721 completed surveys).

A 95% confidence interval indicates that for every 100 random samples of this many residents, 95 of the confidence intervals created will include the “true” population response. This theory is applied in practice to mean that the “true” perspective of the target population lies within the confidence interval created for a single survey. For example, if 72% of residents rate a service as “excellent” or “good,” then the 4% margin of error (for the 95% confidence interval) indicates that the range of likely responses for the entire jurisdiction is between 68% and 76%. This source of error is called sampling error. In addition to sampling error, other sources of error may affect any survey, including the non-response of residents with opinions different from survey responders.

For subgroups of responses (e.g., gender or age), the margin of error increases because the sample size for the subgroup is smaller. For subgroups of approximately 100 respondents, the margin of error is plus or minus 10 percentage points.

Survey Processing (Data Entry)

Mailed surveys were submitted via postage-paid business reply envelopes. Once received, staff assigned a unique identification number to each questionnaire. Additionally, each survey was reviewed and “cleaned” as necessary. For example, a question may have asked a respondent to pick two items out of a list of five, but the respondent checked three; staff would choose randomly two of the three selected items to be coded in the dataset.

Once cleaned and numbered, all surveys were entered into an electronic dataset. This dataset was subject to a data entry protocol of “key and verify,” in which survey data were entered twice into an electronic dataset and then compared. Discrepancies were evaluated against the original survey form and corrected. Range checks as well as other forms of quality control were also performed.

NRC used Qualtrics, a web-based survey and analytics platform, to collect the online survey data. Use of an online system means all collected data are entered into the dataset when the respondents submit the surveys. Skip patterns are programmed into the system so respondents are automatically “skipped” to the appropriate question based on the individual responses being given. Online programming also allows for more rigid control of the data format, making extensive data cleaning unnecessary.

A series of quality control checks were also performed in order to ensure the integrity of the web data. Steps may include and not be limited to reviewing the data for clusters of repeat IP addresses and time stamps (indicating duplicate responses) and removing empty submissions (questionnaires submitted with no questions answered). The online survey data were downloaded, cleaned as necessary and appended to the mail survey data to create a final, complete dataset.

Weighting the Data

The demographic characteristics of the survey respondents were compared to those of the 2010 Census and the American Community Survey 2015 5-year Estimates. The primary objective of weighting survey data is to make the survey respondents reflective of the larger population of the community. The variables used for weighting were respondent gender, age, tenure (rent or own), housing unit type (attached or detached) and ethnicity. No adjustments were made for design effects. The results of the weighting scheme are presented in the table on the following page.

Table 157: 2018 Littleton Resident Survey Weighting Table

Characteristic	Population Norm ¹	Unweighted Data	Weighted Data
Housing			
Rent home	38%	23%	37%
Own home	62%	77%	63%
Detached unit ²	54%	60%	55%
Attached unit ²	46%	40%	45%
Race and Ethnicity			
White	91%	92%	88%
Not white	9%	8%	12%
Not Hispanic	90%	95%	90%
Hispanic	10%	5%	10%
White alone, not Hispanic	85%	89%	82%
Hispanic and/or other race	15%	11%	18%
Sex and Age			
Female	52%	60%	52%
Male	48%	40%	48%
18-34 years of age	26%	9%	25%
35-54 years of age	37%	26%	37%
55+ years of age	36%	65%	38%
Females 18-34	13%	5%	14%
Females 35-54	19%	15%	18%
Females 55+	20%	40%	21%

District 4	26%	29%	29%

¹ Source: 2010 Census² ACS 2015 5-year estimates³ Source: List of randomly selected households identified as in the City boundaries, purchased February 2018.

Analyzing the Data

The electronic dataset was analyzed by NRC staff using IBM's Statistical Package for the Social Sciences (SPSS). For the most part, frequency distributions or the percent positive (i.e., "excellent" or "good," "strongly agree" or "somewhat agree," "essential" or "very important") are presented in the body of the report. On many of the questions in the survey, respondents could give an answer of "don't know." The proportion of respondents giving this reply is shown in the full set of responses included in *Appendix A: Responses to Survey Questions* and is discussed in the body of this report if it is 30% or greater. However, these responses have been removed from the analyses presented in the body of the report, unless otherwise indicated. In other words, the majority of the tables and graphs in the body of the report display the responses from respondents who had an opinion about a specific item. When a table for a question that only permitted a single response does not total to exactly 100%, it is due to the common practice of percentages being rounded to the nearest whole number.

Appendix F: Survey Materials

The following pages contain the mailing materials and survey instrument for the 2018 Resident Survey.

Dear Littleton Resident,

It won't take much of your time to make a big difference!

Your household has been randomly selected to participate in a survey about the City of Littleton. Your survey will arrive in a few days.

Thank you for helping create a better community!

Sincerely,

A handwritten signature in black ink, reading "Debbie Brinkman". The signature is fluid and cursive, with a long, sweeping underline.

Debbie Brinkman, Mayor
City of Littleton

Dear Littleton Resident,

It won't take much of your time to make a big difference!

Your household has been randomly selected to participate in a survey about the City of Littleton. Your survey will arrive in a few days.

Thank you for helping create a better community!

Sincerely,

A handwritten signature in black ink, reading "Debbie Brinkman". The signature is fluid and cursive, with a long, sweeping underline.

Debbie Brinkman, Mayor
City of Littleton

Dear Littleton Resident,

It won't take much of your time to make a big difference!

Your household has been randomly selected to participate in a survey about the City of Littleton. Your survey will arrive in a few days.

Thank you for helping create a better community!

Sincerely,

A handwritten signature in black ink, reading "Debbie Brinkman". The signature is fluid and cursive, with a long, sweeping underline.

Dear City of Littleton Resident:

Please help us shape the future of Littleton! You have been selected at random to participate in the 2018 Littleton Resident Survey.

Please take a few minutes to fill out the enclosed survey. Your participation in this survey is very important – especially since your household is one of only a small number of households being surveyed.

City leaders have used previous survey results to make a number of improvements in the community. We're investing more money in street maintenance, we've simplified our license and permitting process, and we've made great strides in promoting Littleton as an attractive community for visitors, events, businesses, and more.

A few things to remember:

- **Your responses are completely anonymous.**
- In order to hear from a diverse group of residents, the adult 18 years or older in your household who most recently had a birthday should complete this survey.
- **You may return the survey by mail in the enclosed postage-paid envelope, or you can complete the survey online at (please be sure to type the address exactly as it appears here):**

If you have any questions about this survey, please contact Kelli Narde, Director of Communications, at (303) 795-3733.

Please help us to keep Littleton a great place to live, work and play! Thank you for your help and participation.

Sincerely,

Debbie Brinkman
Mayor

Dear City of Littleton Resident:

Here's a second chance if you haven't already responded to the 2018 Littleton Resident Survey! **(If you completed it and sent it back, we thank you for your time and ask you to recycle this survey. Please do not respond twice.)** Please help us shape the future of Littleton! You have been selected at random to participate in the 2018 Littleton Resident Survey.

Please take a few minutes to fill out the enclosed survey. Your participation in this survey is very important – especially since your household is one of only a small number of households being surveyed.

City leaders have used previous survey results to make a number of improvements in the community. We're investing more money in street maintenance, we've simplified our license and permitting process, and we've made great strides in promoting Littleton as an attractive community for visitors, events, businesses, and more.

Please help us to keep Littleton a great place to live, work and play! Thank you for your help and participation.

Sincerely,

Debbie Brinkman
Mayor

City of Littleton 2018 Resident Survey

Please have an adult age 18 or older that most recently had a birthday complete this survey. Year of birth plays no role in the selection. Your responses are anonymous and will be reported in group form only. Thank you for completing this survey!

1. Please rate each of the following aspects of quality of life in Littleton.

	Excellent	Good	Fair	Poor	Don't know
Littleton as a place to live	1	2	3	4	5
Your neighborhood as a place to live	1	2	3	4	5
Littleton as a place to raise children	1	2	3	4	5
Littleton as a place to retire.....	1	2	3	4	5
Littleton as a place to work.....	1	2	3	4	5
Overall quality of life in Littleton	1	2	3	4	5

2. What are your reasons for living in Littleton? (Please select all that apply.)

- ☐ I feel safe here ☐ I like the school my children attend ☐ Sense of community
☐ I like the location in general ☐ I like living in a college town ☐ Housing and rental rates are affordable
☐ Cost of living is affordable ☐ I like my neighborhood ☐ Other _____
☐ I've always lived here ☐ I have friends and family in the area

3. To what extent do you agree or disagree that each statement below describes the City of Littleton?

	Strongly agree	Somewhat agree	Somewhat disagree	Strongly disagree	Don't know
The city is a safe community.....	1	2	3	4	5
The city has a low crime rate	1	2	3	4	5
The city supports local businesses	1	2	3	4	5
Littleton has tight-knit neighborhoods	1	2	3	4	5
The city offers the best schools	1	2	3	4	5
Littleton has an effective city government	1	2	3	4	5
Traffic flows well on city streets	1	2	3	4	5

4. Please identify up to three issues you believe are the most pressing issues facing Littleton in the next two years.

- ☐ Job growth ☐ Street maintenance ☐ Alternative energy sources
☐ Traffic in general ☐ Aging or outdated commercial areas ☐ Open space
☐ Business retention ☐ Leisure activities ☐ Maintenance of city properties and buildings
☐ Neighborhoods ☐ Crime reduction ☐ Other: _____
☐ Trails ☐ Traffic light synchronization
☐ Community image ☐ Business attraction

5. Please tell us how safe you feel in each of the following areas in Littleton.

	Very safe	Somewhat safe	Somewhat unsafe	Very unsafe	Don't know
Downtown Littleton during the day	1	2	3	4	5
Downtown Littleton at night	1	2	3	4	5
Your neighborhood during the day.....	1	2	3	4	5
Your neighborhood at night.....	1	2	3	4	5
Parks, trails, natural open space areas	1	2	3	4	5
Littleton overall during the day	1	2	3	4	5
Littleton overall at night	1	2	3	4	5

6. You have the option to shop locally in Littleton, in other cities, or on the Internet. All things being equal, how important do you think it is to shop locally in Littleton?

- ☐ Essential ☐ Very important ☐ Somewhat important ☐ Not at all important ☐ Don't know

7. How important is it for Littleton to promote itself as a location for business, shopping, recreation and entertainment?

- ☐ Essential ☐ Very important ☐ Somewhat important ☐ Not at all important ☐ Don't know

8. First, please rate the *quality* of each of the following in Littleton. Then, rate how *important*, if at all, each is to you.

	<u>Quality</u>					<u>Importance</u>				
	Excellent	Good	Fair	Poor	Don't know	Essential	Very important	Somewhat important	Not at all important	Don't know
Appearance of city	1	2	3	4	5	1	2	3	4	5
Shopping opportunities	1	2	3	4	5	1	2	3	4	5
Job opportunities	1	2	3	4	5	1	2	3	4	5
Historic preservation.....	1	2	3	4	5	1	2	3	4	5
Economic development	1	2	3	4	5	1	2	3	4	5
Public transit services	1	2	3	4	5	1	2	3	4	5
Traffic flow	1	2	3	4	5	1	2	3	4	5
Snow plowing.....	1	2	3	4	5	1	2	3	4	5
Downtown parking	1	2	3	4	5	1	2	3	4	5
Parks and trails.....	1	2	3	4	5	1	2	3	4	5
Recreation opportunities.....	1	2	3	4	5	1	2	3	4	5

	Excellent	Good	Fair	Poor	Don't know
Library programs (e.g., story time, Summer Reading program, etc.)	1	2	3	4	5
Library services (e.g., reference desk, check out, etc.)	1	2	3	4	5
Internet and computer services.....	1	2	3	4	5
Online services at www.littletongov.org/bemis accessed from home or elsewhere (e.g., book holds, access databases, research, etc.)	1	2	3	4	5
Materials and collections.....	1	2	3	4	5
Library building and grounds	1	2	3	4	5
Overall performance of the library	1	2	3	4	5

11. Please circle the number that comes closest to your opinion about the Littleton Museum and its services:

	<u>Excellent</u>	<u>Good</u>	<u>Fair</u>	<u>Poor</u>	<u>Don't know</u>
Museum programs (e.g., lectures, classes, special events – Holiday's Eve, Sheep to Shawl, spring planting)	1	2	3	4	5
Wednesday evening free summer concerts	1	2	3	4	5
Museum research center.....	1	2	3	4	5
Museum rotating exhibits.....	1	2	3	4	5
Art shows in the galleries.....	1	2	3	4	5
Living History Farms/Historic Site Interpreters.....	1	2	3	4	5
Museum building and grounds	1	2	3	4	5
Overall performance of the Littleton Museum.....	1	2	3	4	5

12. If you had contact with the City of Littleton Police Department, please indicate about how many times you've been in contact over the last 12 months.

☐ Zero times (go to question 14) ☐ 1-2 times ☐ 3-5 times ☐ 6-8 times ☐ 9 or more times

13. Based on your most recent contact with a member of the Littleton Police Department, please rate each of the following aspects of the employee with whom you had contact.

	<u>Excellent</u>	<u>Good</u>	<u>Fair</u>	<u>Poor</u>	<u>Don't know</u>
Fairness.....	1	2	3	4	5
Responsiveness to requests and/or needs	1	2	3	4	5
Level of interest in addressing your concerns	1	2	3	4	5
Helpfulness	1	2	3	4	5
Courteousness	1	2	3	4	5
Knowledge	1	2	3	4	5
Timeliness of handling the situation.....	1	2	3	4	5
Use of force in fair and effective way	1	2	3	4	5
Resolution of concerns	1	2	3	4	5
Overall impression of staff members	1	2	3	4	5

14. Please rate the job the Littleton Police Department does at each of the following in Littleton.

	<u>Excellent</u>	<u>Good</u>	<u>Fair</u>	<u>Poor</u>	<u>Don't know</u>
Crime prevention	1	2	3	4	5
Crime solving	1	2	3	4	5
Maintaining public order	1	2	3	4	5
Providing public information and education	1	2	3	4	5
Protecting individual civil rights.....	1	2	3	4	5
Assisting fire responders with disasters	1	2	3	4	5

15. Please rate the Littleton Police Department on the following.

	<u>Excellent</u>	<u>Good</u>	<u>Fair</u>	<u>Poor</u>	<u>Don't know</u>
Being trustworthy	1	2	3	4	5
Acting in the best interest of the community.....	1	2	3	4	5
Treating all residents fairly	1	2	3	4	5
Being sensitive to residents' concerns.....	1	2	3	4	5
Responding to citizens' emergency calls for service.....	1	2	3	4	5
Caring about the well-being of the people they deal with	1	2	3	4	5
Working with people in your neighborhood to solve neighborhood problems	1	2	3	4	5
Communicating regularly with community members (e.g., websites, emails or public meetings)	1	2	3	4	5
Inviting community members to provide input (e.g., comments, suggestions and concerns)	1	2	3	4	5

16. Overall, how would you rate the quality of municipal services provided by the City of Littleton?

☐ Excellent ☐ Good ☐ Fair ☐ Poor ☐ Don't know

17. Please rate the following categories of Littleton government performance.

	<u>Excellent</u>	<u>Good</u>	<u>Fair</u>	<u>Poor</u>	<u>Don't know</u>
The direction the city is taking with respect to open space, trails and parks.....	1	2	3	4	5
Attracting companies to locate in Littleton	1	2	3	4	5
The job the city government does at welcoming citizen involvement	1	2	3	4	5
Opportunities to participate in city government decisions	1	2	3	4	5
Responding to citizen complaints and concerns.....	1	2	3	4	5
Holding public meetings about city plans.....	1	2	3	4	5
Littleton's elected officials' consideration of what people like me think	1	2	3	4	5
Littleton's government as an example of how best to provide services	1	2	3	4	5
The city manager's management of city operations	1	2	3	4	5
The quality of work provided by City of Littleton employees.....	1	2	3	4	5
Spending local tax dollars wisely	1	2	3	4	5
The value of services for the property taxes paid to Littleton.....	1	2	3	4	5
A city government that is run efficiently	1	2	3	4	5
Running Littleton's local government in the best interest of residents	1	2	3	4	5
Being transparent and accountable to the public	1	2	3	4	5
Providing information about city plans and programs	1	2	3	4	5
The overall direction the city is taking.....	1	2	3	4	5

18. To what extent do you trust that the decisions made by city council represent the best interest of citizens?

- ☐ To a great extent
- ☐ To a moderate extent
- ☐ To a small extent
- ☐ Not at all
- ☐ Don't know

19. Thinking about what you currently know regarding each of the following city council goals and objectives, please indicate whether you feel the city should apply more effort, the same amount of effort, or less effort toward each.

	<u>More effort</u>	<u>Same effort</u>	<u>Less effort</u>	<u>Don't know</u>
Assure a Financially Sound City Government	1	2	3	4
Provide a Safe Community to Live, Work and Play.....	1	2	3	4
Develop and Maintain the Public Infrastructure.....	1	2	3	4
Preserve and Cultivate a Quality Community	1	2	3	4
Pursue a Balanced and Sustainable Local Economy	1	2	3	4
Promote Environmental Sustainability	1	2	3	4
Foster Community Involvement, Communication and Trust	1	2	3	4

20. Thinking about the next five to eight years, how important is each of the following potential projects in Littleton? Please first circle the number which best fits your opinion for each item. Then, check the ONE circle for the item you think is the most important future project for Littleton.

	<u>Essential</u>	<u>Very important</u>	<u>Somewhat important</u>	<u>Not at all important</u>	<u>Don't know</u>	<u>Most important</u>
Reducing traffic congestion on city streets	1	2	3	4	5	<input type="radio"/>
Maintaining and improving city infrastructure (e.g., streets, sidewalks, buildings, etc.).....	1	2	3	4	5	<input type="radio"/>
Building new trails	1	2	3	4	5	<input type="radio"/>
Continuing preservation programs for historic buildings.....	1	2	3	4	5	<input type="radio"/>
Partnering strategically and financially with the private sector in development	1	2	3	4	5	<input type="radio"/>
Redeveloping older neighborhoods.....	1	2	3	4	5	<input type="radio"/>
Redeveloping aging shopping centers	1	2	3	4	5	<input type="radio"/>
Expanding programs for youth	1	2	3	4	5	<input type="radio"/>
Expanding programs for seniors	1	2	3	4	5	<input type="radio"/>
Expanding programs for immigrants	1	2	3	4	5	<input type="radio"/>

21. Please indicate how much of a priority, if at all, you think it is for the City of Littleton Police Department to focus resources on each of the following areas in the next two years.

	High priority	Medium priority	Low priority	Not a priority	Don't know
Traffic issues/residential speeding	1	2	3	4	5
Vandalism/graffiti	1	2	3	4	5
Fraud/identity theft	1	2	3	4	5
School safety (bullying, fighting, weapons)	1	2	3	4	5
Homeless/transient-related issues	1	2	3	4	5
Gang activity	1	2	3	4	5
Violent crimes	1	2	3	4	5
Property crimes	1	2	3	4	5
Hate crimes	1	2	3	4	5
Disorderly conduct/public intoxications/noise violations	1	2	3	4	5
Disorderly youth/underage drinking	1	2	3	4	5
Drug abuse (manufacture, sale, or use of illegal/prescription drugs)	1	2	3	4	5

22. The city currently has a budget shortfall to fund all the needed improvements to aging infrastructure, such as maintaining streets to an adequate level, maintaining and adding sidewalks and maintaining existing buildings. If the city asked voters to pass a sales and use tax increase of three-quarters of a cent (\$0.0075) on every \$1 which would sunset (expire) in 15 years, to what extent would you support or oppose this increase?

- ☐ Strongly support
 ☐ Somewhat support
 ☐ Somewhat oppose
 ☐ Strongly oppose
 ☐ Don't know

23. A three-quarters of a cent sales and use tax increase will generate approximately \$8.7 million a year, which will help to cover a portion of the costs to make the needed improvements. However, a higher sales and use tax increase would allow more improvements to be made sooner, while a lower sales and use tax increase would allow fewer improvements over a longer period of time. Thinking about a potential sales and use tax increase, which of the following statements best describe your opinion? Please select only one.

- ☐ I'd rather pay a 1 cent (\$0.01) sales and use tax increase to complete more of the needed improvements sooner
☐ A three-quarters of a cent (\$0.0075) sales and use tax increase sounds like the right amount to me
☐ I'd rather pay one-half of a cent (\$0.005) sales and use tax increase and complete fewer of the needed improvements over a longer period of time
☐ I do not want a sales and use tax increase

24. To what extent would you support or oppose a lodging tax that hotel room visitors would pay with the money to be used for tourism, marketing and promotion of Littleton?

- ☐ Strongly support
 ☐ Somewhat support
 ☐ Somewhat oppose
 ☐ Strongly oppose
 ☐ Don't know

25. Please indicate how important it is to you, if at all, to receive information from the city about each of the following topics.

	Essential	Very important	Somewhat important	Not at all important	Don't know
Special events (e.g., concerts, races, festivals)	1	2	3	4	5
Police/crime data	1	2	3	4	5
City finances/budget	1	2	3	4	5
Development projects (new residential or commercial buildings or sites)	1	2	3	4	5
Demographics of the community	1	2	3	4	5
Public asset conditions (streets, city buildings/facilities, etc.)	1	2	3	4	5
Code enforcement requirements and current activity	1	2	3	4	5
Street/traffic/road work	1	2	3	4	5
Community planning (land uses, transportation, etc.)	1	2	3	4	5
Economic development	1	2	3	4	5
City council decisions	1	2	3	4	5

Other topics you would like to receive information about: _____

26. Please indicate whether each of the following is a major source, minor source or not a source of information for you when looking for information about the City of Littleton.

	Major source	Minor source	Not a source
The <i>Littleton Report</i> (bi-monthly city newsletter)	1	2	3
The <i>Littleton Independent</i> (weekly, privately-owned newspaper)	1	2	3
<i>Denver Post</i>	1	2	3
