LEGAL DESCRIPTION - Our Lady of Mt. Carmel

A tract of land, approximately 1.016 acres, located in Section 16, Township 5S, Range 68W - Lots 1 & 2 of Block 1 Hickory Heights in the City of Littleton, County of Arapahoe, State of Colorado

LEGAL DESCRIPTION - Drinkwine Mortuary

A tract of land, approximately 1.5 acres, located in Section 16, Township 5S, Range 68W - Lot 3 Ex E. 5 Ft. Block 1 Hickory Heights in the City of Littleton, County of Arapahoe, State of Colorado

ZONING AND LAND USE

Zone District: R3 - Residential Single Family District
Principal Use: Church

PROJECT NARRATIVE

Please accept Our Lady of Mount Carmel's submittal for the proposed expansion and remodeling of our current facility located at 5612 South Hickory Circle, Littleton, Colorado 80120. The church is fortunate to be experiencing increasing growth and therefore, would like to maximize and enhance their existing facilities. The church would like to better utilize its existing building and therefore, will be modifying the exterior expression while at the same time expanding the nave and sanctuary components and adding accessible restrooms to the facility.

The original, approved Phase One Plan included an expanded Nave, accessible restrooms, a new narthex, new offices, and an expanded parking lot that would utilize a parking agreement between Our Lady of Mount Carmel Catholic Church and Drinkwine Mortuary.

Based on the money that the church has been able to raise to date, we would like to suggest the following alternatives to what was originally submitted. In the Amended Phase One Plan, the church's first priority is to modify the existing sanctuary, nave and sacristy. The reasons behind this include:

- The existing roof is in extremely poor condition and needs to be fixed very soon.
- Modifying the nave will gain a few additional seats.
- The church has purchased a new high altar that cannot be installed until the roof height is raised from its existing height. This approach would also improve the exterior aesthetics of the church and would add a very complimentary design element to the community. Finally, as part of this addition, new restrooms would be added which are desperately needed by the users of the church and will be required by code
- This new proposed first phase will include the expansion of the Nave while modifying the exterior, and the addition of new accessible restrooms to meet code. Twelve parking spaces on the church's property will be eliminated in order to maintain the site's current percentage of open space. There will still be the required number of parking stalls on the site. It will also include widening the sidewalk along Hickory St. on the West side of the site. There will be an alternate in Phase 1 that will include a small addition to and remodeling of the Sacristy. With this alternate, the percentage of open space on the site would still be at or above its current percentage.

Phase Two will include redeveloping and adding on to their existing parking facility, which will be needed in order to add the new Narthex and Church Offices. In order to accomplish this we would like to propose not only the redevelopment of our parking lot but also our adjacent neighbor's parking lot at Drinkwine Mortuary, who currently enjoys more parking than is required by Littleton's Parking Zoning Ordinance. Therefore, by merging both parking lots, the intention of the project is to not only enhance and develop a more efficient parking area for both facilities, but also allow the church to add additional turf area to the site in order to meet the green space requirements for the expansion of the project. In addition to the site modifications, the project will include the renovation and addition to religious education classrooms, modifications to the current parish hall and adjacent kitchen, and finally, the addition of an administrative office area for the church. The exterior fenestration of the Parish Hall will be modified to develop a holistic expression for the entire building reflecting a gothic architectural theme for the remodel and expanded church.

I, Engelbert Jackson, owner or designated agent thereof do hereby agree that the above described property will be developed in accordance with the uses, restrictions and conditions contained within this SDP. Further, the City of Littleton is hereby granted permission to enter onto said property for the purposes of conducting inspections to establish compliance of the development of the property with on-site improvements including, but not limited to, landscaping, drainage facilities, parking areas and trash enclosures. If upon inspection, the City finds deficiencies in the on-site improvements and after proper notice, the developer shall take appropriate corrective action. Failure to take such corrective action specified by the City shall be ground for the City to apply any or all of any required financial assurance to cause the deficiencies to be into compliance with this SDP or with any subsequent amendments hereto.

SURVEYOR'S CERTIFICATION:

To: Archdiocese of Denver, a Colorado Corporation sale, as trustee and for the benefit of Our Lady of Mt. Carmel Latin Mass Community Parish and Chicago Title Insurance Company.

This is to certify that this map or plat and the survey on which it is based were made in accordance with "Minimum Standard Detail Requirements for ALTA/ACSM Land Title Surveys," jointly established and adopted by ALTA, ACSM and NSPS in 2005, and includes Items 1, 3, 4, 5, 7a, 8, 9, 10, 11b and 13 of Table A thereof. Pursuant to the Accuracy Standards as adopted by ALTA, NSPS, and ACSM and in effect on the date of this certification, undersigned further certifies that in my professional opinion, as a land surveyor registered in the State of Colorado, the relative positional accuracy of this survey does not exceed that which is specified therein.

STANDARD NOTES FOR GRADING AND EROSION CONTROL PLANS

- The property owner is ultimately responsible for the installation and maintenance of all erosion control facilities that are installed on the property, even if specific tasks may be designated to others such as contractors, sub-contractors or site operators. If the City gives direction to a designee, it is the designee's responsibility to notify the owner.
- The City may require that the owner or their designee provide additional erosion control measures should unforeseen water or wind erosion problems occur or should the Erosion and Sediment Control Plan (ESCP) implemented not function as intended.
- All erosion control devices shown on the plan are to be installed properly prior to the start of grading or soil disturbance on the site. The silt fencing, sediment traps, inlet protection and other Best Management Practices (BMP's) shall be inspected, cleaned and maintained by the owner or their designee as needed. A written report shall be prepared at least every two weeks and after all storm (rain or snow) runoff events. The owner or their designee shall submit copies of all inspection reports to the City for review. BMP's removed to accommodate construction phasing, including clearing and grubbing, utilities, roads, vertical construction, final grading, and stabilization shall have redundant BMP's in place to provide adequate erosion control.
- The ESCP measures are to remain in-place and operational until all site paving and permanent landscaping is completed. A sustainable vegetation growth in a density of at least 70% of the pre-existing condition, is to be established on all seeded areas or permanent erosion control measures shall be installed and maintained. Temporary irrigation may be necessary to establish plant growth.
- All areas disturbed by grading or construction traffic shall be seeded, mulched and watered or otherwise vegetated to stabilize the ground surface within 30 days of the completion of grading operations, or as approved by the City if seasonal or weather conditions do not allow. The City shall approve the seed mix and rate of application prior to seeding the area.
- After the site has been stabilized or vegetation established, the owner or their designee shall remove all erosion control measures and clean all storm sewers where sediment has been deposited. It may also be necessary to periodically clean the public storm sewers and down gradient properties during the development of the site.
- The owner or their designee is responsible to clean all public streets and sidewalks where sediment or mud is tracked onto the paved surface. The owner or their designee may be required to clean the public way immediately upon being notified by the City.
- The owner or their designee shall be responsible for the development and implementation of a Storm Water Management Plan (SWMP) of appropriate control measures and maintenance procedures to prevent pollution from all non-storm water discharges on the site. The SWMP shall address, at a minimum:
 - Concrete mixer truck wash water disposal areas
 - Spill protection for petroleum products and other chemicals, including vehicle fueling and potentially hazardous materials
 - Prohibition of chemicals added to storm water
 - Building material waste disposalProvisions to install and maintain redundant BMP's to accommodate removal of BMP's shown on the ESCP for construction phasing, including but not limited to clearing and grubbing, utilities, roads, vertical construction, final grading and stabilization.
- If the owner or their designee fails to implement any of the provisions of the ESCP and ignores the City's verbal or written request for immediate remedy, the City may make arrangements or hire a private contractor to clean the public ways and bill the owner directly for the actual cost of such cleanup plus a \$300 administrative fee.
- The City may issue a "Stop Work" order to stop any permitted site construction work from proceeding until the erosion control measures provided on the ESCP are reinstalled, implemented as intended, or until corrective measures are taken and any necessary cleanup is performed.
- The owner or their designee may not utilize the public street as a staging area for the temporary storage of building materials, excavated materials or construction equipment. Use of offsite private property for staging may be subject to review by the Littleton Zoning Official.
- For all sites equal to or greater than one (1) acre, the State of Colorado requires a CDP's General Permit entitled "Stormwater Discharges Associated with Construction Activity." A copy of that permit shall be submitted to the City of Littleton Engineering & Utilities Division prior to the issuance of any Grading, Foundation or Building Permit by the City.
- An Air Pollutant Emission Notice Construction Permit issued by the Colorado Department of Public Health and Environment (CDPHE), Air Pollution Control Division is required for all sites larger than 25 acres or for those areas which take more than six months to reach completion. A copy of that permit shall be submitted to the City of Littleton Engineering & Utilities Division prior to the issuance of any Grading, Foundation or Building Permit.
- A Construction Dewatering Discharge Permit shall be obtained from CDPHE prior to pumping of any surface or sub-surface water into any City public way or storm drainage system. Adequate sediment control BMP's shall be required at the pump's inlet and outlet.

CALL UTILITY NOTIFICATION
CENTER OF COLORADO
1-800-922-1987
CALL 2-BUSINESS DAYS IN ADVANCE
BEFORE YOU DIG, GRADE, OR EXCAVATE
FOR THE MARKING OF UNDERGROUND
MEMBER UTILITIES.

CAUTION - NOTICE TO CONTRACTOR

THE CONTRACTOR IS SPECIFICALLY CAUTIONED THAT THE LOCATION AND/OR ELEVATION OF EXISTING UTILITIES AS SHOWN ON THESE PLANS IS BASED ON RECORDS OF THE VARIOUS UTILITY COMPANIES AND, WHERE POSSIBLE, MEASUREMENTS TAKEN IN THE FIELD. THE INFORMATION IS NOT TO BE RELIED ON AS BEING EXACT OR COMPLETE. THE CONTRACTOR MUST CALL THE LOCAL UTILITY LOCATION CENTER AT LEAST 48 HOURS BEFORE ANY EXCAVATION TO REQUEST EXACT FIELD LOCATIONS OF THE UTILITIES. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO RELOCATE ALL EXISTING UTILITIES WHICH CONFLICT WITH THE PROPOSED IMPROVEMENTS SHOWN ON THE PLANS.

THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE TO EXISTING IMPROVEMENTS AND UTILITIES AND SHALL REPAIR ANY DAMAGE AT HIS EXPENSE.

INSTALLATION & MAINTENANCE REQUIREMENTS

OWNER OR DESIGNATED AGENT THEREOF SHALL COMPLETE THE LANDSCAPE IMPROVEMENTS SHOWN ON THIS PLAN. MAINTENANCE OF THE LANDSCAPE IMPROVEMENTS SHALL COMPLY WITH TITLE 10, CHAPTER 5 OF THE LITTLETON CITY CODE. IT IS HEREBY ACKNOWLEDGED THAT MAINTENANCE OF THE LANDSCAPE IMPROVEMENTS IS NOT PERSONAL TO THE DEVELOPER, BUT RUNS WITH THE LAND AND SHALL BE THE RESPONSIBILITY OF ALL CURRENT AND FUTURE OWNERS/OCCUPANTS.

Sheet 9 of 15

AMENDED FINAL SITE DEVELOPMENT PLAN FOR
A portion of Section 16, Township 5S, Range 68W - Lots 1 & 2 of Block 1 Hickory Heights
In the City of Littleton, County of Arapahoe, State of Colorado
also known as
OUR LADY OF MOUNT CARMEL CATHOLIC CHURCH
5612 South Hickory Street
Case No. SDP09-0009

DECIDUOUS TREE PLANTING

NOT TO SCALE

SHRUB PLANTING

NOT TO SCALE

EXISTING TREE PROTECTION

NOT TO SCALE

TREE PROTECTION NOTES

1. REMOVAL OF EXISTING TREES WITHIN THE DEVELOPMENT IS SUBJECT TO A CITY TREE REMOVAL PERMIT APPLICATION ADMINISTERED BY THE CITY OF LITTLETON.
2. TREE PRESERVATION MEASURES MUST BE IN PLACE BEFORE CONSTRUCTION. DEMOLITION AND/OR GRADING ACTIVITIES COMMENCE. CITY OF LITTLETON MAY STOP CONSTRUCTION IF TREE PRESERVATION MEASURES ARE NOT IN PLACE AND MAINTAINED THROUGHOUT THE CONSTRUCTION PERIOD.
3. TREES CALLED OUT FOR PRESERVATION SHALL BE FENCED AT THE DRIPLINE. FENCING MAY OCCUR AT THE COMBINED DRIPLINES OF GROVES OF TREES. PLACE 3 INCH BARK MULCH BENEATH DRIPLINES OF TREES TO BE PRESERVED.
4. FENCING SHALL BE 3 FEET TALL SNOW FENCING WITH STEEL POSTS EMBEDDED IN THE GROUND.
5. NO GRADING SHALL OCCUR WITHIN THE DRIPLINES/FENCED AREA OF EXISTING TREES.
6. NO CONSTRUCTION MATERIALS OR CONSTRUCTION VEHICLES MAY BE STORED WITHIN THE DRIPLINES/FENCED AREA OF EXISTING TREES.
7. CONSTRUCTION VEHICLES OR MACHINERY MAY NOT PASS BETWEEN TWO OR MORE EXISTING TREES IDENTIFIED FOR PRESERVATION IF THEIR CANOPIES ARE WITHIN 10 FEET OF TOUCHING. ADDITIONAL FENCING MAY BE REQUIRED.
8. THE CONTRACTOR IS REQUIRED TO HAVE AN ARBORIST CERTIFIED BY THE INTERNATIONAL SOCIETY OF ARBORICULTURE (ISA) ON SITE IF SITE CONSTRUCTION EFFORTS REQUIRE REMOVAL OF EXISTING ROOTS OR BRANCH PRUNING.
9. UNAUTHORIZED TREE REMOVAL OR DAMAGE IS SUBJECT TO REPLACEMENT EQUAL TO THE APPRAISED VALUE OF THE TREE LOST. CONTRACTOR IS RESPONSIBLE FOR DOCUMENTATION OF ALL EXISTING TREES TO REMAIN, PRIOR TO CONSTRUCTION.
10. THE CONTRACTOR IS REQUIRED TO WATER, FERTILIZE AND ATTEND TO OTHER MAINTENANCE NEEDS OF EXISTING TREES TO MAINTAIN HEALTHY GROWTH THROUGHOUT THE CONSTRUCTION PERIOD. AN EARTH BERT MEASURING MINIMUM 6 FEET IN DIAMETER AND 6 INCHES IN HEIGHT SHALL BE CONSTRUCTED AT THE BASE OF EACH TREE TO FUNCTION AS A TEMPORARY WATERING BASIN DURING THE CONSTRUCTION PERIOD. TREES SHALL BE WATERED ACCORDING TO WEATHER AND TREE SPECIES REQUIREMENTS.

LANDSCAPE NOTES

1. COORDINATION
THIS LANDSCAPE ARCHITECTURAL SITE PLAN IS TO BE USED IN CONJUNCTION WITH THE CIVIL, ARCHITECTURAL, MECHANICAL, ELECTRICAL, STRUCTURAL AND IRRIGATION PLANS AND SPECIFICATIONS TO FORM COMPLETE INFORMATION REGARDING THIS SITE.
2. COMPLIANCE
CONSTRUCTION SHALL CONFORM TO ALL APPLICABLE STATE AND LOCAL CODES.
3. GUARANTEE
ALL MATERIALS AND WORKMANSHIP SHALL BE GUARANTEED FOR ONE YEAR, FROM DATE OF FINAL ACCEPTANCE, AT NO ADDITIONAL COST TO THE OWNER.
4. COMPLETION AND MAINTENANCE
A. FINAL ACCEPTANCE: WITHIN TEN DAYS OF CONTRACTOR'S NOTICE THAT THE ENTIRE PROJECT IS COMPLETE, THE L.A. SHALL REVIEW INSTALLATION. IF FINAL ACCEPTANCE IS NOT GIVEN, THE L.A. SHALL PREPARE A PUNCH LIST OF PENDING ITEMS. THE PUNCH LIST ITEMS SHALL BE COMPLETED BY THE CONTRACTOR WITHIN TEN CALENDAR DAYS FROM DATE ISSUED. SUBSEQUENT REVIEW AND APPROVAL SHALL SIGNIFY ACCEPTANCE.
B. MAINTENANCE: ALL LANDSCAPING SHALL BE MAINTAINED FROM INSTALLATION TO FINAL ACCEPTANCE. MAINTENANCE SHALL INCLUDE WATERING, FERTILIZING, WEEDING, MOWING, TRIMMING, ROLLING, REGRADING, REPLANTING, DISEASE AND INSECT PROTECTION.
5. SITE CONDITIONS
LANDSCAPE CONTRACTOR SHALL EXAMINE THE SITE CONDITIONS UNDER WHICH THE WORK IS TO BE PERFORMED AND NOTIFY THE GENERAL CONTRACTOR IN WRITING OF UNSATISFACTORY CONDITIONS. DO NOT PROCEED UNTIL CONDITIONS ARE CORRECTED. LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR FINISHED GRADES AND POSITIVE DRAINAGE IN LANDSCAPE AREAS.
6. DAMAGE AND CLEANING
A. CONTRACTOR SHALL REPAIR OR REPLACE ALL ITEMS DAMAGED DUE TO THIS WORK AT NO ADDITIONAL COST TO THE OWNER.
B. CONTRACTOR SHALL CLEAN ALL AREAS DUE TO THIS WORK AND PROPERLY REMOVE ALL UNUSED MATERIALS FROM SITE.
7. RIGHT OF REJECTION
OWNER/LANDSCAPE ARCHITECT RESERVES THE RIGHT TO REJECT ANY MATERIALS AT ANY TIME. ALL PLANT MATERIALS SHALL MEET THE MINIMUM CURRENT AMERICAN STANDARDS FOR NURSERY STOCK BY THE AMERICAN ASSOCIATION OF NURSERYMEN. CONTRACTOR SHALL PROVIDE SAMPLES, SPECS, AND OR TAGS FOR ALL MATERIALS.
8. SOIL PREPARATION
SOD AND SHRUB BED AREAS SHALL RECEIVE SIX INCHES OF APPROVED TOPSOIL. AMEND SOIL WITH THREE CUBIC YARDS PER THOUSAND SQUARE FEET OF ORGANIC COMPOST. COMPOST TO HAVE A C:N RATIO BETWEEN 15:1 AND 30:1, LESS THAN 6 mm/100 cm SALT CONTENT, A pH BETWEEN 6.5 AND 8.5, AND OVER 30% ORGANIC MATTER. APPLY 3 LBS. OF N AND 3 LBS. OF P (DIAMONUM PHOSPHATE) PER THOUSAND SQ. FEET. ROTOTILL AMENDMENTS AND TOPSOIL TO A DEPTH OF SIX INCHES.
9. SOODING
SOD SHALL BE 90% TURF TYPE TALL FESCUE AND 10% BLUEGRASS. INSTALL WITHIN 24 HRS. OF CUTTING. (SUBMIT CERTIFICATION FROM GROWER).
10. PLANTING
TREES AND SHRUBS SHALL BE PLANTED PER DETAILS. STAKE AND GUY TREES PER DETAILS. TREE AND SHRUB BED LOCATIONS SHALL BE APPROVED PRIOR TO PLANTING. BACKFILL WITH 1/3 SOIL AMENDMENT AND 2/3 SITE SOIL, THOROUGHLY MIXED. FERTILIZE AS RECOMMENDED WITH AGRIFORM TABLETS.
11. EDGING
INSTALL 4" RYERSON ROLL TOP STEEL EDGING (14 GAUGE WITH GREEN FINISH) OR EQUAL. INSTALL WITH STAKES AND SPLICES PER MANUFACTURER'S RECOMMENDATIONS.
12. MULCH
INSTALL WESTERN RED CEDAR MULCH A MINIMUM OF 3" DEEP (NO FABRIC) UNLESS OTHERWISE SHOWN. RIVER COBBLE TO BE WASHED, ROUNDED, AND 2"-4" IN SIZE PLACED OVER DEWITT PRO 5 FILTER FABRIC, 3" DEEP. (SUBMIT SAMPLES).
13. MAINTENANCE
THE PROPERTY OWNER OF RECORD, THE OWNER'S AGENT OR TENANT SHALL KEEP ALL LANDSCAPING IN A WELL MAINTAINED AND HEALTHY GROWING CONDITION.
14. IRRIGATION
ALL LANDSCAPE AREAS SHALL BE WATERED BY AN UNDERGROUND AUTOMATIC SYSTEM. ALL TURF AREAS LESS THAN 25' IN WIDTH SHALL HAVE A POP-UP SPRAY SYSTEM AND ALL TURF AREAS GREATER THAN 25' SHALL HAVE A ROTARY POP-UP SYSTEM PROVIDING HEAD TO HEAD COVERAGE. ALL SHRUB BEDS SHALL HAVE A DRIP SYSTEM ZONED SEPARATE FROM TURF AREAS.
