Englewood, CO 80110

Re: Program Modification Approval, National Pollutant Discharge Elimination System (NPDES)
Number: CO-0032999

Dear Mr. Van Ry:

The Environmental Protection Agency public noticed your request for a substantial modification of the South Platte Water Renewal Partner's Pretreatment program on May 30, 2019, as required by 40 CFR Section 403.18. The program modification was an update to the technically-based local limits for the service area of the POTW. The ordinances for the Cities of Littleton and Englewood were modified to incorporate the updated local limits.

Our records indicate that no substantive comments were received and that the modifications, as public noticed, have remained unchanged. Therefore, pursuant to 40 CFR Section 403.18(c), the modifications public noticed by the EPA are approved. The revised pretreatment program shall be an enforceable condition of your NPDES permit as of the date of this approval letter (*see 40 CFR Section 122.63(g)*). The South Platte Water Renewal Partners needs to update its procedures or permits to ensure these adequately implement the program modification, as required in 40 CFR 403.8(f)(2).

If you have any questions, please contact Al Garcia, EPA Region 8 Pretreatment Coordinator, at (303) 312-6382 or garcia.al@epa.gov.

Sincerely,

Colleen R.L. Rathbone
Manager, Wastewater Section
